(b) Records confidentially disclosed to an agency and compiled and maintained for scientific research, in conjunction with an application for a loan, the regulation of commercial enterprise, including mineral exploration records, unpatented, secret commercially valuable plans, appliances, formulae, or processes, which are used for the making, preparing, compounding, treating, or processing of articles or materials which are trade commodities obtained from a person and which are generally recognized as confidential, or for the grant or review of a license to do business and if openly disclosed would permit an unfair advantage to competitors of the subject enterprise. This exemption shall not, however, apply to records the disclosure or publication of which is directed by other statute.

(c) Public records pertaining to a prospective location of a business or industry where no previous public disclosure has been made of the business' or industry's interest in locating in, relocating within or expanding within the Commonwealth. Provided, however, that this exemption shall not include those records pertaining to application to agencies for permits or licenses necessary to do business or to expand business operations within the state, except as provided in paragraph (b) above.

(d) The contents of real estate appraisals, engineering or feasibility estimates and evaluations made by or for a public agency relative to acquisition of property, until such time as all of the property has been acquired; provided, however, the law of eminent domain shall not be affected by this provision.

(e) Test questions, scoring keys and other examination data used to administer a licensing examination, examination for employment or academic examination before the exam is given or if it is to be given again.

(f) Records of law enforcement agencies or agencies involved in administrative adjudication that were compiled in the process of detecting and investigating statutory or regulatory violations if the disclosure of the information would harm the agency by revealing the identity of informants not otherwise known or by premature release of information to be used in a prospective law enforcement action or administrative adjudication. Unless exempted by other provisions of KRS 61.870 to 61.884, public records exempted under this provision shall be open after enforcement action is completed or a decision is made to take no action. Provided, however that the exemptions provided by this subsection shall not be used by the custodian of the records to delay or impede the exercise of rights granted by KRS 61.870 to 61.884.

(g) Preliminary drafts, notes, correspondence with private individuals, other than correspondence which is intended to give notice of final action of a public agency.

(h) Preliminary recommendations, and preliminary memoranda in which opinions are expressed or policies formulated or recommended.

(i) All public records or information the disclosure of which is prohibited by federal law or regulation.

(j) Public records or information the disclosure of which is prohibited or restricted or otherwise made confidential by enactment of the general assembly.

(2) No exemption in this section shall be construed to prohibit disclosure of statistical information not descriptive of any readily identifiable person.

Section 26. KRS 453.260 is amended to read as follows:

(1) In addition to any costs which are awarded as prescribed by statute, a court shall award costs to any party which prevails by a final adjudication on the merits in any of the following:

(a) A civil action brought by the Commonwealth against the party;

(b) A civil action brought by the party against the Commonwealth to challenge the assessment or collection of taxes;

(c) A court proceeding to review an administrative review board decision, where the original administrative action was brought by the Commonwealth against the party.

(2) The court in its discretion may deny the award provided for in this section, or may reduce the award, if it finds that:

(a) During the course of the proceeding the prevailing party unduly and unreasonably protracted the final resolution of the matter; or

(b) The reason that the party other than the Commonwealth has prevailed is an intervening change in the applicable statutes, regulations or case law; or

(c) The prevailing party refused an offer of civil settlement which was at least as favorable to the party as the relief ultimately granted; or

(d) The position of the Commonwealth was substantially justified or a special circumstance would make an award unjust provided, however, that the burden of proof of substantial justification or special circumstance shall rest with the Commonwealth.

(3) A party may apply pursuant to the applicable Rules of Civil Procedure for an award of attorney fees and other expenses authorized under this section and shall include as part of the application evidence of the party's eligibility for the award and the amount sought, including an itemized and attested statement from the attorneys and experts stating the actual time expended in representing the party and the rate at which the fees were computed. The party shall also allege in such application that the Commonwealth acted without substantial justification.

(4) The court shall base any award of fees as provided in this section on prevailing market rates for the kind and quality of services furnished, except that:

(a) An expert is not eligible for compensation at a rate in excess of the prevailing rate of compensation for similar experts paid by the Commonwealth;

(b) The award of attorney fees may not exceed the amount which the prevailing party has paid or has agreed to pay the attorney or a maximum amount of forty dollars ($40.00) per hour unless the court determines that an increase in the cost of living or a special factor, such as the limited availability of qualified attorneys for the proceeding involved, justifies a higher fee;

(c) No award shall be greater than ten thousand dollars ($10,000) to each party except that no award shall be made to any party who voluntarily intervenes in any such action.

(5) This section does not:

(a) Apply to an action arising from a proceeding before the Commonwealth in which the role of the Commonwealth was to determine the eligibility or entitlement of an individual to a monetary benefit or its equivalent, or to adjudicate a dispute or issue between private parties or to establish or fix a rate. As used in this subsection, monetary benefit or its equivalent shall not include a license, permit, charter or similar instrument that the Commonwealth may require to engage in a business, profession or similar activity;

(b) Apply to proceedings brought by the Commonwealth pursuant to KRS Chapters 218A, 431 to 439, and 500 to 534;

(c) Apply to proceedings involving eminent domain, foreclosure, collection of judgment debts or proceedings in which the Commonwealth is a nominal party;

(e) Apply to proceedings brought pursuant to KRS Chapters [~~18,~~] 209, 342 and KRS 199.011 to 199.630.

Section 22. KRS 18A.355 is amended to read as follows:

(1) An annual increment of not less than five percent (5%) of the *base* [~~gross annual~~] salary or wages of each state employe shall be granted to each employe *on his anniversary date. The employe's base salary or wages shall be increased by the amount of the annual increment. When any increment due to a promotion, reallocation, reclassification or salary adjustment is granted an employe, the employe's base salary or wages shall be increased by the amount of such increment. An employe's base salary or wages shall not be increased by the amount of a cash bonus awarded him*.

(2) The *branch* [~~biennial~~] budget *recommendation* [~~report~~] submitted to the general assembly under KRS *Chapter 48* [~~45.110, 48.180 and 48.185~~] shall include a request for the amount of the annual increment expressed as a percentage of each employe's *base* [~~gross~~] salary or wages and a request for the total appropriation needed to fund the annual increment. The annual increment shall be uniform for all employes. The financial plan enacted under the provisions of KRS 45.300 [~~and 48.500~~] shall contain the annual increment expressed as a percentage of each employe's *base* [~~gross~~] salary or wages, and the total appropriation needed to fund the annual increment.

(3) The budget reduction plan submitted and enacted under the provisions of KRS Chapter 48 shall provide that a reduction of the annual increment granted under this section shall be made only after other cost savings measures, as provided by Section 6 of this Act, are taken. Any such reduction shall be uniform for all state employes and shall comply with the provisions of this Act and KRS Chapter 48.

Section 23. KRS 48.130 is amended to read as follows:

(1) The branch budget recommendation submitted by each branch of government shall include a plan for the reduction of the respective budget recommendations, by budget unit, when projected or actual tax receipts accruing to the general fund or road fund are at least two and one-half percent (2 1/2%) but not more than five percent (5%) less than the revenue estimates for these funds as determined under subsection (3) of KRS 48.120.

(2) *(a)* In recommending budget reductions, the governor, the chief justice, and the legislative research commission shall not recommend universal percentage reductions but shall weigh the needs of all budget units and shall strive to protect the highest possible level of service in their respective branches. Services which are not essential to constitutional functions shall be subject to reduction. Transfer of funds may be authorized by the budget reduction plan.

(b) In recommending budget reductions for the executive branch, the budget reduction plan provided for by subsection (1) of this section shall comply with the provisions of Section 6 of this Act.

(c) A layoff of state employes in the executive branch under the budget reduction plan enacted by the general assembly shall comply with the provisions of Section 6 of this Act.

(d) A layoff of state employes in the executive branch required by an actual or projected deficit in tax receipts contemplated by subsection (5) of this section shall comply with the provisions of Section 6 of this Act.

(3) The plan shall be enacted as modified by the general assembly, in each joint budget resolution.

(4) In the event of an actual or projected deficit in tax receipts provided for by this section, the department of revenue shall notify all branches of government:

(a) If funds that have accrued to the surplus accounts of the general or road funds are not sufficient to meet these deficits, the allotments to the respective branches shall be reduced according to the reduction provisions embodied in the joint budget resolution, and the governor, the chief justice, and the legislative research commission shall automatically implement budget reductions for their respective branches according to the reduction provisions embodied in the joint budget resolution*; and* [~~.~~]

(b) In the event funds that have accrued to the surplus accounts of the general or road funds are sufficient to meet these deficits, transfers from these surplus accounts shall be made, as appropriate, and the budget reduction provisions embodied in the joint budget resolution shall not be implemented.

(5) In the event of an actual or projected deficit in tax receipts provided for by this section of less than two and one-half percent (2 1/2%), the governor, the chief justice, and the legislative research commission shall implement budget reductions for their respective branches on their own initiative.

(6) The budget reduction plan shall provide that the annual increment granted state employes under Section 22 of this Act shall be reduced as provided by this Act. Any such reduction of the annual increment shall be uniform for all employes.

(7) If general fund or road fund tax receipts increase over the estimated deficits, then services shall be restored in the reverse order of the reduced services.

(8)[~~(7)~~] This section shall not preclude the general assembly, in regular or special session, from amending a joint budget resolution requiring budget reductions nor shall it preclude the governor from calling a special session of the general assembly at any time the budget reduction plan is in effect.

Section 24. KRS 61.878 is amended to read as follows:

(1) The following public records are excluded from the application of KRS 61.870 to 61.884 and shall be subject to inspection only upon order of a court of competent jurisdiction:

(a) Public records containing information of a personal nature where the public disclosure thereof would constitute a clearly unwarranted invasion of personal privacy.

(b) Records confidentially disclosed to an agency and compiled and maintained for scientific research, in conjunction with an application for a loan, the regulation of commercial enterprise, including mineral exploration records, unpatented, secret commercially valuable plans, appliances, formulae, or processes, which are used for the making, preparing, compounding, treating, or processing of articles or materials which are trade commodities obtained from a person and which are generally recognized as confidential, or for the grant or review of a license to do business and if openly disclosed would permit an unfair advantage to competitors of the subject enterprise. This exemption shall not, however, apply to records the disclosure or publication of which is directed by other statute.

(c) Public records pertaining to a prospective location of a business or industry where no previous public disclosure has been made of the business' or industry's interest in locating in, relocating within or expanding within the Commonwealth. Provided, however, that this exemption shall not include those records pertaining to application to agencies for permits or licenses necessary to do business or to expand business operations within the state, except as provided in paragraph (b) above.

(d) The contents of real estate appraisals, engineering or feasibility estimates and evaluations made by or for a public agency relative to acquisition of property, until such time as all of the property has been acquired; provided, however, the law of eminent domain shall not be affected by this provision.

(e) Test questions, scoring keys and other examination data used to administer a licensing examination, examination for employment or academic examination before the exam is given or if it is to be given again.

(f) Records of law enforcement agencies or agencies involved in administrative adjudication that were compiled in the process of detecting and investigating statutory or regulatory violations if the disclosure of the information would harm the agency by revealing the identity of informants not otherwise known or by premature release of information to be used in a prospective law enforcement action or administrative adjudication. Unless exempted by other provisions of KRS 61.870 to 61.884, public records exempted under this provision shall be open after enforcement action is completed or a decision is made to take no action. Provided, however that the exemptions provided by this subsection shall not be used by the custodian of the records to delay or impede the exercise of rights granted by KRS 61.870 to 61.884.

(g) Preliminary drafts, notes, correspondence with private individuals, other than correspondence which is intended to give notice of final action of a public agency.

(h) Preliminary recommendations, and preliminary memoranda in which opinions are expressed or policies formulated or recommended.

(i) All public records or information the disclosure of which is prohibited by federal law or regulation.

(j) Public records or information the disclosure of which is prohibited or restricted or otherwise made confidential by enactment of the general assembly.

(2) No exemption in this section shall be construed to prohibit disclosure of statistical information not descriptive of any readily identifiable person.

(3) *No exemption in this section shall be construed to deny, abridge or impede the right of a state employe, an applicant for employment, or an eligible on a register to inspect and to copy any record including preliminary and other supporting documentation that relates to him. Such records shall include, but not be limited to, work plans, job performance, demotions, evaluations, promotions, compensation, classification, reallocation, transfers, layoffs, disciplinary actions, examination scores and preliminary and other supporting documentation. A state employe, applicant or eligible shall not have the right to inspect or to copy any examination.*

(4) If any public record contains material which is not excepted under this section, the public agency shall separate the excepted and make the non-excepted material available for examination.

(5)[~~(4)~~] The provisions of this section shall in no way prohibit or limit the exchange of public records or the sharing of information between public agencies when the exchange is serving a legitimate governmental need or is necessary in the performance of a legitimate government function.

Section 25. KRS 453.260 is amended to read as follows:

(1) In addition to any costs which are awarded as prescribed by statute, a court shall award costs to any party which prevails by a final adjudication on the merits in any of the following:

(a) A civil action brought by the Commonwealth against the party;

(b) A civil action brought by the party against the Commonwealth to challenge the assessment or collection of taxes;

(c) A court proceeding to review an administrative review board decision, where the original administrative action was brought by the Commonwealth against the party.

(2) The court in its discretion may deny the award provided for in this section, or may reduce the award, if it finds that:

(a) During the course of the proceeding the prevailing party unduly and unreasonably protracted the final resolution of the matter; or

(b) The reason that the party other than the Commonwealth has prevailed is an intervening change in the applicable statutes, regulations or case law; or

(c) The prevailing party refused an offer of civil settlement which was at least as favorable to the party as the relief ultimately granted; or

(d) The position of the Commonwealth was substantially justified or a special circumstance would make an award unjust provided, however, that the burden of proof of substantial justification or special circumstance shall rest with the Commonwealth.

(3) A party may apply pursuant to the applicable Rules of Civil Procedure for an award of attorney fees and other expenses authorized under this section and shall include as part of the application evidence of the party's eligibility for the award and the amount sought, including an itemized and attested statement from the attorneys and experts stating the actual time expended in representing the party and the rate at which the fees were computed. The party shall also allege in such application that the Commonwealth acted without substantial justification.

(4) The court shall base any award of fees as provided in this section on prevailing market rates for the kind and quality of services furnished, except that:

(a) An expert is not eligible for compensation at a rate in excess of the prevailing rate of compensation for similar experts paid by the Commonwealth;

(b) The award of attorney fees may not exceed the amount which the prevailing party has paid or has agreed to pay the attorney or a maximum amount of forty dollars ($40.00) per hour unless the court determines that an increase in the cost of living or a special factor, such as the limited availability of qualified attorneys for the proceeding involved, justifies a higher fee;

(c) No award shall be greater than ten thousand dollars ($10,000) to each party except that no award shall be made to any party who voluntarily intervenes in any such action.

(5) This section does not:

(a) Apply to an action arising from a proceeding before the Commonwealth in which the role of the Commonwealth was to determine the eligibility or entitlement of an individual to a monetary benefit or its equivalent, or to adjudicate a dispute or issue between private parties or to establish or fix a rate. As used in this subsection, monetary benefit or its equivalent shall not include a license, permit, charter or similar instrument that the Commonwealth may require to engage in a business, profession or similar activity;

(b) Apply to proceedings brought by the Commonwealth pursuant to KRS Chapters 218A, 431 to 439, and 500 to 534;

(c) Apply to proceedings involving eminent domain, foreclosure, collection of judgment debts or proceedings in which the Commonwealth is a nominal party;

(d) Personally obligate any officer or employe of the Commonwealth for the payment of an award entered under this section;

(e) Apply to proceedings brought pursuant to KRS Chapters [~~18,~~] 209, 342 and KRS 199.011 to 199.630.

Section 26. KRS 18A.350 is amended to read as follows:

As used in [~~this~~] KRS 18A.355 [~~and 18A.360,~~] "employe" means any officer or employe of the executive branch of government. The provisions of KRS 18A.355 [~~and 18A.360~~] do not apply to employes of the general assembly, the legislative research commission, or the court of justice, or to any constitutional officer.

It is further the intention of the general assembly to otherwise expressly preserve the sovereign immunity of the Commonwealth, any of its cabinets, departments, bureaus or agencies or any of its officers, agents or employes while acting in the scope of their employment by the Commonwealth or any of its cabinets, departments, bureaus or agencies in all other situations except where sovereign immunity is specifically and expressly waived as set forth by statute. The board of claims shall have exclusive jurisdiction to hear claims for damages, except as otherwise specifically set forth by statute, against the Commonwealth, its cabinets, departments, bureaus, agencies or any of its officers, agents or employes while acting within the scope of their employment by the Commonwealth, its cabinets, departments, bureaus or agencies.*

SECTION 2. A NEW SECTION OF KRS CHAPTER 44 IS CREATED TO READ AS FOLLOWS:

(5) No action for negligence against the Commonwealth, any of its cabinets, departments, bureaus or agencies, or any officers, agents or employes thereof may be brought initially in any other court or forum in the Commonwealth except the board of claims until the board of claims makes a determination, that has become final, that the board of claims has or does not have primary and exclusive jurisdiction over the claim.

(6) The determination by the board of claims becomes final only after all appellate rights have been finalized or waived.

(7) Any applicable statute of limitations for bringing negligence actions in any court or forum other than the board of claims shall be tolled pending the final determination that the board of claims does not have primary and exclusive jurisdiction of the negligence claim.

(8) No action for negligence may be brought in any court or forum other than the board of claims against the Commonwealth, any of its cabinets, departments, bureaus or agencies or any of its officers, agents or employes while acting within the scope of their employment by the Commonwealth, or any of its cabinets, departments, bureaus or agencies.

(9) Negligence as used herein includes negligence, gross negligence, or wanton negligence.

(10) The defense of contributory negligence is not a complete bar to recovery of plaintiff's claim in the board of claims and the doctrine of comparative negligence shall be utilized by the board.

(11) Except as otherwise provided by KRS Chapter 44, nothing contained herein shall be construed to be a waiver of sovereign immunity or any other immunity or privilege maintained by the Commonwealth, its cabinets, departments, bureaus and agencies and its officers, agents and employes.

(f) Administrative acts.

(14) The filing of an action in court or any other forum or the purchase of liability insurance or the establishment of a fund for self-insurance by the Commonwealth, its cabinets, departments, bureaus, or agencies or its agents, officers or employes thereof for a government related purpose or duty shall not be construed as a waiver of sovereign immunity or any other immunity or privilege thereby held. Except as specifically set forth by statute, no counterclaim, set off, recoupment, cross-claim or other form of avoidance of the claim for damages may be asserted by any person when suit is brought against said person by the Commonwealth or any of its cabinets, departments, bureaus or agencies thereof.

(15) Neither the Commonwealth nor any of its cabinets, departments, bureaus or agencies or any officers, agents or employes thereof shall be liable under a respondent superior theory or any other similar theory for the acts of independent contractors, contractors or subcontractors thereof or anyone else doing work or providing services for the state on a volunteer basis or pursuant to a contract therewith.

(4) The employes of the crime victims compensation board, without additional compensation, shall be ex-officio employes of the board of claims.

(5) Regardless of any provision of law to the contrary, the jurisdiction of the board is exclusive, and a single

claim for the recovery of money or a single award of money shall not exceed *one hundred thousand dollars ($100,000)* [~~fifty thousand dollars ($50,000)~~], exclusive of interest and costs. *However, if a single act of negligence results in multiple claims, the total award may not exceed two hundred fifty thousand dollars ($250,000) to be equitably divided among the claimants but in no case may any claimant individually receive more than one hundred thousand dollars ($100,000).*

(6) The governor shall appoint the necessary number of hearing officers each of whom shall be an attorney admitted to practice law in Kentucky and shall have practiced law for at least three (3) years. These officers, upon the direction of the chairman or the board shall conduct hearings, and otherwise supervise the presentation of evidence and perform any other duties assigned to them by the chairman or the board except that such hearing officers shall not render final decisions, orders, or awards. However, such hearing officers may, in receiving evidence on behalf of the board, make such rulings affecting the competency, relevancy, and materiality of the evidence about to be presented and upon motions presented during the taking of evidence as will expedite the preparation of the case.

(7) The board may at any time recommend the removal of any hearing officer upon filing with the governor a full written statement of its reasons for such removal.

(8) Upon recommendation to the board by the attorney for the Commonwealth, its cabinet, department, bureau, agency or employe thereof, that a settlement has been reached between the parties to the claim, and upon approval by the board that the settlement is reasonable for all parties concerned, the agreed judgment or dismissal may be entered accordingly, even without a party's admission to liability.

Section 4. KRS 44.090 is amended to read as follows:

All awards and cost of operation assessed by the board against the department of highways shall be paid out of state road fund, upon warrants drawn by the secretary of the finance and administration cabinet upon the state treasurer. All awards and cost of operation assessed by the board against other *cabinets* [~~departments~~] or agencies of the state, which are not maintained by appropriations out of the general fund, shall be paid out of the funds created or collected for the maintenance and operation of such *cabinets* [~~department~~] or agencies respectively, upon warrants drawn by the secretary of the finance and administration cabinet upon the state treasurer. All amounts necessary to pay awards and cost of operation assessed by the board against all other *cabinets* [~~departments~~] or agencies of the Commonwealth shall be paid out of the general fund of the Commonwealth, upon warrants drawn by the secretary of the finance and administration cabinet upon the state treasurer. The executive secretary of the board shall maintain accurate records reflecting the costs incident to the operation of the board. (4) Notwithstanding subsection (3) of this section, the claim for relief for medical malpractice shall be deemed to accrue at the time the personal injury is first discovered by the claimant or in the exercise of reasonable care should have been discovered; however, no action for personal injury as a result of medical malpractice shall be commenced beyond three (3) years from the date on which the alleged negligent act or omission of malpractice actually occurred.

(1) Triplicate originals of such application for withdrawal shall be delivered to the secretary of state. However, if after *ninety (90)* [~~thirty (30)~~] days have elapsed since the application for withdrawal was forwarded to the secretary of revenue, the secretary of state shall proceed as if approval had been given, but if it is later determined that the corporation is indebted for taxes to the state or any of its political subdivisions, this provision shall not relieve any such liability.

SB 339, AN ACT relating to insurance.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS 304.20-070 TO 304.20-150 IS CREATED TO READ AS FOLLOWS:

(1) The purpose of this Act is to regulate declinations, cancellations, and refusals to renew certain policies of property or casualty insurance as defined in KRS 304.5-050 and 304.5-070 which are delivered, issued for delivery, or renewed after the effective date of this Act and to require specific reasons for such action.

(2) This Act does not apply to:

(a) Automobile liability insurance policies protected by KRS 304.20-040; or

(b) Any policy issued through a residual market mechanism.

SECTION 2. A NEW SECTION OF KRS 304.20-070 TO 304.20-150 IS CREATED TO READ AS FOLLOWS:

As used in this Act:

(1) "Renewal" or "to renew" means the issuance and delivery by an insurer at the end of a policy period or term of a policy superseding a policy previously issued and delivered by the same insurer, or the issuance and delivery of a certificate or notice extending the term of an existing policy beyond its policy period or term. For the purpose of this Act, any policy period or term of less than six (6) months shall be considered to be a policy period or term of six (6) months and any policy period or term of more than one (1) year or any policy with no fixed expiration date shall be considered a policy period or term of one (1) year;

(2) "Nonpayment of premium" means the failure of the named insured to discharge any obligation in connection with the payment of premiums on property or casualty insurance subject to this Act, whether such payments are directly payable to the insurer or its agent or indirectly payable under a premium finance plan or extension of credit. "Nonpayment of premium" shall include failure to pay dues or fees where payment of such dues or fees is a prerequisite to obtaining or continuing property or casualty insurance coverage;

(3) "Termination" means either a cancellation or nonrenewal of property or casualty insurance coverage in whole or in part. A cancellation occurs during the policy period or term as set forth in subsection (1) of this section. A nonrenewal occurs at the end of the policy year or term as set forth in subsection (1) of this section. For the purpose of this Act, the transfer of a policyholder between companies within the same insurance group shall be considered a termination, but requiring a reasonable deductible, reasonable changes in the amount of insurance, or reasonable reductions in policy limits or coverage shall not be considered a termination if such requirements are directly related to the hazard involved and are made on the renewal date for the policy;

(4) "Declination" means either the refusal of an insurer to issue a property or casualty insurance policy upon receipt of a written non-binding application or written request for coverage from its agent or an applicant, or refusal of an agent to transmit to an insurer a written non-binding application or written request for coverage received from an applicant. For the purposes of this Act, the offering of insurance coverage with a company within an insurance group which is different from the company requested on the non-binding application or written request for coverage for the offering of insurance upon different terms than requested in the non-binding application or written request for coverage shall be considered to be a declination; and

(5) "Agent" includes, but is not limited to, surplus lines brokers.

SECTION 3. A NEW SECTION OF KRS 304.20-070 TO 304.20-150 IS CREATED TO READ AS FOLLOWS:

(1) Declinations. An applicant may request in writing an explanation of a declination. The insurer shall provide a prompt written response to such inquiries.

(2) Cancellations.

(a) A notice of cancellation of insurance subject to this Act by an insurer shall be in writing, shall be delivered to the named insured or mailed to the named insured at the last known address of the named insured, shall state the effective date of the cancellation, and shall be accompanied by a written explanation of the specific reason or reasons for the cancellation; and

(b) The notice of cancellation referred to in paragraph (a) of this subsection shall be mailed or delivered by the insurer to the named insured at least fourteen (14) days prior to the effective date of the cancellation if the cancellation occurs within sixty (60) days of the date of issuance of the policy. Such notice of cancellation shall be mailed or delivered by the insurer to the named insured at least thirty (30) days prior to the effective date of the cancellation if the policy has been in effect more than sixty (60) days.

(3) Nonrenewals.

(a) No insurer shall refuse to renew a property or casualty insurance policy subject to this Act unless at least thirty (30) days before the end of the policy period as described in Section 2(1) of this Act, the insurer shall mail or deliver to the named insured, at the last known address of the named insured, written notice of the insurer's intention not to renew the policy upon expiration of the current policy period. The insured may request in writing an explanation of the insurer's reason for a nonrenewal. Upon receipt of such request, the insurer shall provide a written explanation of the specific reason or reasons for the nonrenewal.

(b) No notice of intention not to renew shall be required where the named insured is given notice of the insurer's willingness to renew the policy by mailing or delivering of a renewal notice, bill, certificate, or policy.

(c) If notice is not provided pursuant to paragraphs (a) and (b) of this subsection, coverage shall be deemed to be renewed for the ensuing policy period upon payment of the appropriate premium under the same terms and conditions, and subject to the provisions of Section 4 of this Act, until the named insured has accepted replacement coverage with another insurer, or until the named insured has agreed to the nonrenewal.

(4) No insurer shall increase the premium for a property or casualty insurance policy subject to this Act more than twenty-five percent (25%) of the premium for the preceding policy term for like coverage and like risks unless at least thirty (30) days before the end of the policy period as described in Section 2(1) of this Act, the insurer shall mail or deliver to the named insured, at the last known address of the named insured, notice of such premium increase or a bill for the renewal premium and the insurer shall mail or deliver to its agent, if any, a duplicate notice of the premium increase. In order to comply with this requirement, the insurer may extend the period of coverage of the current policy at the expiring premium.

SECTION 4. A NEW SECTION OF KRS 304.20-070 TO 304.20-150 IS CREATED TO READ AS FOLLOWS:

After coverage has been in effect more than sixty (60) days or after the effective date of a renewal policy a notice of cancellation shall not be issued unless it is based on at least one (1) of the following reasons:

(1) Nonpayment of premium;

(2) Discovery of fraud or material misrepresentation made by or with the knowledge of the named insured in obtaining the policy, continuing the policy, or in presenting a claim under the policy;

(3) Discovery of willful or reckless acts or omissions on the part of the named insured which increase any hazard insured against;

(4) The occurrence of a change in the risk which substantially increases any hazard insured against after insurance coverage has been issued or renewed;

(5) A violation of any local fire, health, safety, building, or construction regulation or ordinance with respect to any insured property or the occupancy thereof which substantially increases any hazard insured against;

(6) The insurer is unable to reinsure the risk covered by the policy; or

(7) A determination by the commissioner that the continuation of the policy would place the insurer in violation of the Kentucky insurance code or regulations of the commissioner.

SECTION 5. A NEW SECTION OF KRS 304.20-070 TO 304.20-150 IS CREATED TO READ AS FOLLOWS:

The declination or termination of a policy of insurance subject to this Act by an insurer or agent is prohibited if the declination or termination is:

(1) Based solely upon the race, religion, nationality, ethnic group, age, sex, or marital status of the applicant or named insured;

(2) Based solely upon the lawful occupation or profession of the applicant or named insured, except that this provision shall not apply to an insurer which limits its market to one (1) lawful occupation or profession or to several related lawful occupations or professions or to an insurer that does not provide the kind of insurance sought by the applicant;

(3) Based solely upon the age or location of the residence or property of the applicant or named insured unless such decision is for a business purpose which is not a mere pretext for unfair discrimination;

(4) Based solely upon the fact that another insurer previously declined to insure the applicant or terminated an existing policy in which the applicant was the named insured; or

(5) Based solely upon the fact that the applicant or named insured previously obtained insurance through a residual market mechanism.

SECTION 6. A NEW SECTION OF KRS 304.20-070 TO 304.20-150 IS CREATED TO READ AS FOLLOWS:

If the commissioner determines that:

(1) An insurer has violated Section 3, 4, or 5 of this Act, the commissioner may require the insurer to:

(a) Accept the application or written request for insurance coverage at a rate and on the same terms and conditions as are available to other risks similarly situated;

(b) Reinstate insurance coverage to the end of the policy period; or

(c) Continue insurance coverage at a rate and on the same terms and conditions as are available to other risks similarly situated;

Section 1. KRS 304.13-151 is amended to read as follows:

(1) Notwithstanding KRS 304.13-131, insurers participating in joint underwriting, pools, or residual market mechanisms may, in connection with such activity, cooperate in the making of rates, rating systems, policy forms, underwriting rules, surveys, inspections and investigations, the furnishing of loss and expense statistics and other information, and the undertaking of research. A joint underwriting pool or residual market mechanism shall not be deemed an advisory organization.

(2) A pool shall file with the commissioner a copy of its constitution, bylaws, rules governing its activities,

(3) Any plan or agreement to implement a residual market mechanism shall be submitted to the commissioner for approval. (4) If the commissioner finds after a hearing that an activity of an insurer participating in joint underwriting, a pool, or a residual market mechanism will tend to substantially lessen competition in an insurance market, or is otherwise inconsistent with the provisions of KRS 304.13-011 to 304.13-161, an order may be issued specifying in what respects the activity is anticompetitive or inconsistent with KRS 304.13-011 to 304.13-161 and requiring the discontinuance of the activity.

(5) As a condition of its authority under KRS Chapter 304 to transact casualty insurance (as defined in KRS 304.5-070) in this state, every insurer so authorized shall become and remain a signatory to the "Kentucky automobile insurance plan" as it is presently formulated or as it is hereafter amended with the approval of the commissioner. The "Kentucky automobile insurance plan" shall be deemed to be a mandated "residual market mechanism" as defined in KRS 304.13-011(8).

The county clerk and the secretary of state shall keep a record of the number of *special* [~~absentee~~] ballots cast in any election as a part of the official returns of the election.

Section 7. KRS 117.087 is amended to read as follows:

(1) The challenge of *a special* [~~an absent voter's~~] ballot must be in writing and in the hands of the county clerk before 3:00 p.m. on election day.

(2) The county board of elections shall count the *special* [~~absentee~~] ballots. The board may appoint a central *special* [~~absentee~~] ballot counting board of not less than three (3) members, who shall be qualified voters and no more than two-thirds (2/3) of which shall be members of the same political party, to count the ballots at the direction of the county board of elections.

(3) Beginning at 3:00 p.m. on election day the board may meet at the clerk's office to count the *special* [~~absentee~~] ballots. The clerk shall compare the signatures on the outer envelope and the detachable flap with the signature of the voter that appears on the registration card. If the outer envelope and the detachable flap are found to be in order the clerk shall read aloud the name of the [~~absent~~] voter. If the vote of such voter is not rejected on a challenge then made as provided in subsection (4), the clerk shall then remove the detachable flap and place the inner envelope unopened in a ballot box which has been provided for the purpose.

(4) When the name of *a* [~~an absent~~] voter is read aloud by the clerk, the vote of such voter may be challenged by any board member or by the written challenge provided in subsection (1) of this section and the challenge thereto may be determined and the [~~absentee~~] vote accepted or rejected by the board as if the voter was present and voting in person, but if the outer envelope and the detachable flap are regular, and substantially comply with the provisions of this chapter, they shall be considered as showing that the [~~absent~~] voter is prima facie entitled to vote. If the vote of *a* [~~an absent~~] voter is rejected pursuant to the challenge, the outer envelope shall not be opened, and the clerk shall write on the envelope the word "rejected."

(5) After the challenges have been made and all the blank inner envelopes have been placed in a ballot box, the box shall be thoroughly shaken so as to redistribute the ballots in the box. The board shall then open the ballot box, remove the *special* [~~absentee~~] ballots from the inner envelopes, count and record the *special* [~~absentee~~] ballot votes on a form provided by the state board.

(6) The county clerk shall retain the ballots, detachable flaps and the outer envelopes for thirty (30) days, at which time they shall be burned by the county board of elections. If a contest or recount proceeding is instituted during said thirty-day period, the ballots shall not be burned but shall be disposed of as directed by the court in which such proceeding was instituted.

(6) The election officers shall constantly maintain a watch in order to prevent any person from voting more than once.

If the person making the report has reason to believe that immediate protection for the child is advisable, that person shall also make an oral report to an appropriate law enforcement agency. If the report is made to any agency other than the department, such agency shall promptly refer the report to the department. The report shall be followed by a written report within forty-eight (48) hours if so requested by the department. The department or its delegated representative shall upon the receipt of the initial report immediately send a report of suspected physical or sexual abuse to the appropriate law enforcement agency for any appropriate action. Such report shall contain the names and addresses of the child and his parents or other persons responsible for his care, if known, the child's age, the nature and extent of the child's abuse or neglect (including any evidence of previous abuse or neglect) to this child or his siblings; the name and address of the person responsible for the abuse or neglect; and any other information that the person making the report believes may be helpful in the furtherance of the purpose of this section. "Section 2. KRS 353.590 is amended to read as follows:

(1) Any person, seeking a permit required by KRS 353.570, shall submit to the department a written application in such form as may be prescribed by the department.

(2) Each application shall be accompanied by a specified fee as follows:

(a) The fee shall be one hundred dollars ($100) for each well to be drilled, deepened or reopened for any purpose relating to the production, repressuring or storage of oil or gas, and for each water supply well, observation well, and geological or structure test hole.

(b) If the department receives delegation of authority for administration of the underground injection control program under Section 1425 of the Safe Drinking Water Act (Public Law 93-523 as amended), the department may, by regulation, establish a fee or schedule of fees in an amount not to exceed fifty dollars ($50.00) per well, in addition to the fees imposed by paragraph (a) of this subsection, upon each application to drill, deepen or reopen a well for any purpose relating to the production, repressuring or storage of oil or gas, and for each water supply well, observation well, and geological or structure test hole. The fees or schedule of fees to be established by regulation shall not exceed an amount sufficient to recover the costs incurred by the department in administering the underground injection control program less any other state or federal funds which are made available for such purpose.

(c) All money paid to the state treasurer for fees required by paragraph (b) of this subsection shall be for the sole use of the department in the administration of the underground injection control program under Section 1425 of the Safe Drinking Water Act (Public Law 93-523 as amended).

(3) All money paid to the state treasurer for licenses and fees required by KRS 353.500 to 353.720 shall be for the sole use of the department and shall be in addition to any moneys appropriated by the general assembly for the use of the department.

(4) Each application shall be accompanied by a plat, which shows the location and elevation of each well, prepared according to the rules and regulations promulgated under KRS 353.500 to 353.720. The plat shall be certified as accurate and correct by the applicant, a qualified employe of the applicant, a person approved by the department, or an engineer registered in Kentucky, provided that when the location of the well is known to be underlaid by coal-bearing stratum, such plat shall be certified accurate and correct only by an engineer registered in Kentucky. If any plat submitted by an applicant is determined by the department to be materially inaccurate or incomplete, the department may require that a new plat be prepared and submitted either by a person approved by the director or an engineer registered in Kentucky. The department may further require that all future plats submitted by such an applicant be prepared either by a person approved by the director or an engineer registered in Kentucky.

(5) No later than the filing of the application with the department for a permit to drill and prior to any site preparation, the applicant shall give notice by certified mail of intent to drill to the property owner or owners of the surface of the land to be drilled or to be affected by surface disturbances as a result of the drilling operation. Such notice shall contain a correct copy of the plat required to be submitted with the application.

(*6*) When any person submits to the department of mines and minerals an application for a permit to drill a well, or to reopen, deepen or temporarily abandon any well which is not covered by surety bond, the department shall except as provided in this section, require from the well operator a bond in the sum of $1,000 in favor of the department of mines and minerals, conditioned that the well upon abandonment shall be plugged in accordance with the rules and regulations of the department and that all records required by the department be filed as specified. The bond shall remain in effect until the plugging of the well is approved by the department, or the bond is released by the department. Any well operator in lieu of such bond may file with the department a blanket bond in a sum of $5,000, covering all wells drilled or to be drilled in the Commonwealth by the principal in the bond, and the acceptance and approval by the department of such blanket bond shall be in full compliance with the above provision requiring an individual well bond. The bond or bonds referred to in this section shall be executed by the well operator as principal and by a corporate surety authorized to do business in the Commonwealth. A deposit in cash shall serve in lieu of either of the above bonds.

(*7*) [~~6~~]Notification in writing to the department by a successor to the well operator with bond as provided in subsection *(6)* [~~(5)~~] that said successor is assuming the obligations of this chapter as to a particular well or wells, will relieve the original permittee of responsibility under this chapter with respect to such well or wells.

(*8*) [~~7~~]If the requirements of subsection *(6)* [~~(5)~~] with respect to proper plugging upon abandonment and submission of all required records on all well or wells have not been complied with within the time limits set by the department or by this chapter, the department shall cause a notice of noncompliance to be served upon the operator by certified mail, addressed to the permanent address shown on the application for a permit. The notice shall specify in what respects the operator has failed to comply with this chapter or the regulations or orders of the department. If the operator has not reached an agreement with the department or has not complied with the requirements set forth by it within forty-five (45) days after mailing of the notice, the bond shall then be forfeited to the department.

(*9*) [~~8~~]When a bond is forfeited pursuant to the provisions of this chapter, the director shall give notice to the attorney general, who shall collect the forfeiture.

(*10*) [9]All sums received through the forfeiture of bonds shall be placed in the state treasury and credited to a special agency account to be designated as the oil and gas well plugging fund. This fund shall be available to the department and may be expended for the plugging of any abandoned wells coming within the authority of the department pursuant to this chapter. The plugging of any well pursuant to this subsection shall not be construed to relieve the operator or any other person from civil or criminal liability which would exist except for such plugging. Any unencumbered and any unexpended balance of this fund remaining at the end of any fiscal year shall not lapse but shall be carried forward for the purpose of the fund until expended or until appropriated by subsequent legislative action.

(*11*) [~~10~~]Upon request by any person applying for a permit for a geological or structure test hole, the department shall keep the location and elevation of said hole confidential until such information is allowed to be released by the person obtaining such permit.

(*12*) [~~11~~]For the purpose of this chapter, ''water supply well'' shall not include:

(a) Any well for a potable water supply for domestic use or for livestock.

(b) Any water well used primarily for cooling purposes in an industrial process.''

(7) For each category, one of the following ratings shall be given:

1. Obtained written statements from both the employe and the evaluator; or

2. Met with the employe and the evaluator.

(13) Within thirty (30) days after the employe has received the written decision of his second line supervisor, he may appeal an evaluation to the board.

A cabinet shall not transfer positions, including vacant positions, in order to circumvent the provisions of this section.

(3) If two (2) or more employes subject to layoff have the same qualifications, the employe with the lesser seniority shall be laid off first.

(4) An employe who is laid off shall be placed on a reemployment register for the class of position from which he was laid off and for any class for which he is qualified. He shall have the right to test for any class of position for which he is qualified to take an examination. If he passes the examination, he shall be placed on the register for the class.

(5) For a period of five (5) years laid-off employes shall be hired before any applicant or eligible except another laid-off employe with greater seniority who is already on such register.

(6) For a period of five (5) years, a laid-off employe shall not be removed from any register unless:

(a) He notifies the department in writing that he no longer desires consideration for a position on such register;

(b) He declines two (2) written offers of appointment;

(c) Without good cause, he fails to report for an interview after he has been notified in writing at least fifteen (15) calendar days prior to the date of the interview;

2. His right to request reconsideration by the commissioner within ten (10) working days of receipt of the notice, excluding the day he receives notification.

(b) He shall be provided with a form prescribed by the commissioner on which to request reconsideration; and

(c) The employe shall file a written request for reconsideration of the reallocation of his position with the commissioner and shall be given a reasonable opportunity to be heard thereon by the commissioner. The commissioner shall make a determination within sixty (60) days after the request has been filed by an employe. After reconsideration of the request by the commissioner, the employe may appeal to the board.

(11) An evaluation may be appealed to the board if an employe has complied with the review procedure established under Section 3 of this Act.

(12) Any state employe, applicant for employment, or eligible on a register may appeal to the personnel board on the grounds that his right to inspect or copy records, including preliminary and other supporting documentation, relating to him has been denied, abridged or impeded by a public agency. The board shall conduct a hearing to determine whether the records related to the employe, applicant or eligible, and whether his right to inspect or copy such was denied, abridged or impeded. If the board determines that the records related to the employe and that the right to inspect or copy such records has been denied, abridged or impeded, the board shall order the public agency to make them available for inspection and copying and shall charge the cost of the hearing to the public agency. A state employe, applicant or eligible shall not have the right to inspect or to copy examination materials.

(13) Any classified state employe may appeal to the board an action alleged to be based on discrimination due to race, color, religion, national origin, sex, handicap, or age. Nothing herein shall be construed to preclude any classified or unclassified state employe from filing with the Kentucky Commission on Human Rights a complaint alleging discrimination on the basis of race, color, religion, national origin, sex, handicap or age in accordance with KRS Chapter 344.

(14) When an eligible's name is removed from a register, the commissioner shall notify the eligible of his action and the reasons therefor, and that he may appeal such removal to the board. An eligible's name shall be restored to the register upon presentation of reasons satisfactory to the commissioner or in accordance with the decision of the board.

(15) (a) Any employe, applicant for employment, or eligible on a register, who believes that he has been discriminated against, may appeal to the board;

(b) Any applicant whose application for admission to an open-competitive examination has been rejected shall be notified of such rejection and the reasons therefor and may appeal to the board for reconsideration of his qualifications and for admission to the examination. Applicants may be conditionally admitted to an examination by the commissioner pending reconsideration by the board;

(c) Any applicant who has taken an examination may appeal to the board for a review of his rating in any part of such examination to assure that uniform rating procedures have been applied equally and fairly;

(d) An appeal to the board by applicants or eligibles under subsections (12), (14) and (15) of this section shall be filed in writing with the executive director not later than fifteen (15) calendar days after the notification of the action in question was mailed.

(16) (a) Appeals to the board shall be in writing on an appeal form prescribed by the board. Appeal forms shall be available at the employe's place of work. The department shall be responsible for the distribution of such forms.

(b) The appeal form shall be attached to any notice or copy of such notice of dismissal, demotion, suspension, fine, involuntary transfer or other penalization, reallocation, or notice of any other action an employe may appeal under the provisions of this Act. The appeal form shall instruct the employe to state whether he is a classified or unclassified employe, his full name, his appointing authority, work station address and telephone number, and, if he has retained counsel at the time he files an appeal, the name, address and telephone number of his attorney.

(c) The form shall also instruct a classified employe to state the action he is appealing in a short, plain, concise statement of the facts. The form shall instruct an unclassified employe to make a short, plain, concise statement of the reason or cause given for his dismissal.

(d) Upon receipt of the appeal by the board, the appointing authority and the department of personnel shall be notified and the board shall schedule a hearing within the time limits prescribed by this Act.

(17) All notices from the board shall be in writing. Notices shall be written so as to be understood by non-attorneys.

(18) (a) [~~Upon such review, both~~] The appealing employe and the appointing authority whose action is reviewed shall have the right to be heard publicly and to be represented by counsel to present evidentiary facts.

(b) Except as provided herein, an appeal shall be decided by the board only after a hearing. The board shall not deny, reject or sustain an appeal, or make any other determination relating to an appeal, except after a hearing is conducted pursuant to the provisions of this Act.

(c) The board may deny a hearing to an employe who has failed to file an appeal within the time prescribed by this Act; and, to an unclassified employe who has failed to state the cause for which he has been dismissed. The board shall notify the employe of its denial in writing and shall inform the employe of his right to appeal such denial under the provisions of KRS 18A.100.

(d) Any investigation by the board of any matter related to an appeal filed by an employe shall be conducted only upon notice to the employe, the employe's counsel, and the appointing authority. All parties to the appeal shall have access to information produced by such investigations and such information shall be presented at the hearing. Any party to the hearing shall be permitted an adequate opportunity to rebut or comment upon such information.

(e) Each appeal shall be decided on its merits.

(19) At the hearing of such appeals, technical rules of evidence shall not apply. *Upon its own motion or upon request by a party, the board may require the production by a party, a state employe or a state agency of documents, records and other material relevant to the appeal.*

(20) Each appeal shall be decided individually unless otherwise agreed by the parties and the board. The board shall not:

(a) Employ class action procedures; or

(b) Conduct test representative cases.

(21) Except as authorized by law, board members and employes of the board shall neither initiate, participate in, nor consider ex parte or other communications concerning a pending or impending proceeding before the board. Board members shall abstain from public comment about a pending or impending proceeding before the board, and shall require similar abstention on the part of board personnel subject to the board's direction and control. This shall not prohibit board members from making public statements in the course of their official duties or from explaining for public information the procedures of the board.

(22) (a) An appeal to the board may be heard by*:*

1. The full board;

2. Two (2) board members;

3. A member of the board and a hearing officer; or

4. The general counsel of the board and either a member of the board and either a member of the board or a hearing officer [~~individual members of the board, by its executive director or by a hearing officer of the board~~].

(b) Any appeal heard by less than the full board shall be *reviewed by the full board before a final order of the board is issued.*

1. Prior to a final order of the board, the board shall provide a copy of the findings of fact and recommendations to the parties to the appeal and shall provide them with an opportunity to submit written exceptions and responses to such findings of fact and recommendations. At the request of a party or on its own motion, the board shall permit oral argument before the full board. Such request shall be filed with the board within fifteen (15) days of the recommended order issued by a member, the executive director, or a hearing officer.

2. The board shall review the record of the evidence presented, the findings of fact and recommendations of the hearing officer, and the written exceptions and responses filed by parties to the appeal [~~subject to review by the full board upon petition for such review by either party to the appeal. Petition for review by the full board shall be filed with the board within thirty (30) days of the recommended order issued by a member, the executive director, or a hearing officer~~].

(c) If the board finds that the action complained of was taken by the appointing authority in violation of laws prohibiting favor for, or discrimination against, or bias with respect to his political or religious opinions or affiliations or ethnic origin, or in violation of laws prohibiting discrimination because of such individual's sex or age or handicap, the appointing authority shall, not later than thirty (30) days after receipt of such findings and recommendations, reinstate the employe to his former position or a position of like status and pay, without loss of pay for the period of his penalization, or otherwise make the employe whole.

(d) If the board finds that the action complained of was taken without just cause, the board shall order the employe reinstated to his former position or a position of like status and pay, without loss of pay for the period of his penalization, or otherwise make the employe whole.

(e) [~~In all other cases,~~] If the board finds that the action taken by the appointing authority was excessive or erroneous in view of all the surrounding circumstances, the board shall alter, modify or rescind the disciplinary action.

(f) In all other cases, the board shall rescind the action taken or otherwise grant such other relief to which the employe is entitled.

(g) The appointing authority shall, not later than thirty (30) days after receipt of the final order of the board, comply with such final order. When any employe is dismissed and not ordered reinstated after such appeal, the board in its discretion may direct that his name be placed on an appropriate reemployment list, for employment in any similar position other than the one from which he had been removed.

(23) After a final decision has been rendered by the board or court, an employe who prevails in his appeal shall be credited with the amount of leave time used for time spent at his hearing before the board or court. Employes who had an insufficient amount of leave time shall be credited with leave time equal to the amount of time spent at their hearings before the board or court.

[~~(2) Any unclassified employe who is dismissed without cause shall not have the right of appeal as provided in this section.~~]

(24)[~~(3)~~] The board shall, within sixty (60) days after an appeal is filed, hear the appeal, and shall, within ninety (90) days after an appeal is filed, issue a final determination for the disposition thereof; and,

Section 15. KRS 18A.355 is amended to read as follows:

(1) *(a)* An annual increment of not less than five percent (5%) of the *base* [~~gross annual~~] salary or wages of each state employe shall be granted to each employe *on his anniversary date.*

(b) An employe's base salary or wages shall be increased by:

1. The amount of the annual increment;

2. A promotional or performance increment granted an employe; and

3. A salary adjustment due to a reclassification or reallocation.

(2) The *branch* [~~biennial~~] budget *recommendation* [~~report~~] submitted to the general assembly under KRS *Chapter 48* [~~48.110, 48.180 and 48.185~~] shall include a request for the amount of the annual increment expressed as a percentage of each employe's gross salary or wages and a request for the total appropriation needed to fund the annual increment. The annual increment shall be uniform for all employes. The financial plan enacted under the provisions of KRS 48.300 [~~and 48.500~~] shall contain the annual increment expressed as a percentage of each employe's gross salary or wages, and the total appropriation needed to fund the annual increment.

(3) The budget reduction plan submitted and enacted under the provisions of KRS Chapter 48 shall provide that a reduction of the annual increment granted under this section shall be made only after other cost savings measures, as provided by subsection (2) of Section 6 of this Act, are taken. Any such reduction shall be uniform for all state employes and shall comply with the provisions of this Act and KRS Chapter 48.

Section 16. KRS 48.130 is amended to read as follows:

(1) The branch budget recommendation submitted by each branch of government shall include a plan for the reduction of the respective budget recommendations, by budget unit, when projected or actual tax receipts accruing to the general fund or road fund are at least two and one-half percent (2 1/2%) but not more than five percent (5%) less than the revenue estimates for these funds as determined under subsection (3) of KRS 48.120.

(2) *(a)* In recommending budget reductions, the governor, the chief justice, and the legislative research commission shall not recommend universal percentage reductions but shall weigh the needs of all budget units and shall strive to protect the highest possible level of service in their respective branches. Services which are not essential to constitutional functions shall be subject to reduction. Transfer of funds may be authorized by the budget reduction plan.

(b) In recommending budget reductions for the executive branch, the budget reduction plan provided for by subsection (1) of this section shall comply with subsections (1) through (3) of Section 6 of this Act.

(c) A layoff of state employes in the executive branch under the budget reduction plan enacted by the general assembly shall comply with the provisions of Sections 4 and 6 of this Act.

(d) A layoff of state employes in the executive branch required by an actual or projected deficit in tax receipts contemplated by subsection (5) of this section shall comply with the provisions of Sections 4 and 6 of this Act.

(3) The plan shall be enacted as modified by the general assembly, in each joint budget resolution.

(4) In the event of an actual or projected deficit in tax receipts provided for by this section, the department of revenue shall notify all branches of government:

(a) If funds that have accrued to the surplus accounts of the general or road funds are not sufficient to meet these deficits, the allotments to the respective branches shall be reduced according to the reduction provisions embodied in the joint budget resolution, and the governor, the chief justice, and the legislative research commission shall automatically implement budget reductions for their respective branches according to the reduction provisions embodied in the joint budget resolution*; and* [~~.~~]

(b) In the event funds that have accrued to the surplus accounts of the general or road funds are sufficient to meet these deficits, transfers from these surplus accounts shall be made, as appropriate, and the budget reduction provisions embodied in the joint budget resolution shall not be implemented.

(5) In the event of an actual or projected deficit in tax receipts provided for by this section of less than two and one-half percent (2 1/2%), the governor, the chief justice, and the legislative research commission shall implement budget reductions for their respective branches on their own initiative.

(6) The budget reduction plan shall provide that the annual increment granted state employes under Section 15 of this Act shall be reduced as provided by this Act. Any such reduction of the annual increment shall be uniform for all employes.

(7) If general fund or road fund tax receipts increase over the estimated deficits, then services shall be restored in the reverse order of the reduced services.

(8)[~~(7)~~] This section shall not preclude the general assembly, in regular or special session, from amending a joint budget resolution requiring budget reductions nor shall it preclude the governor from calling a special session of the general assembly at any time the budget reduction plan is in effect.

Section 17. KRS 61.878 is amended to read as follows:

(1) The following public records are excluded from the application of KRS 61.870 to 61.884 and shall be subject to inspection only upon order of a court of competent jurisdiction:

(a) Public records containing information of a personal nature where the public disclosure thereof would constitute a clearly unwarranted invasion of personal privacy.

(b) Records confidentially disclosed to an agency and compiled and maintained for scientific research, in conjunction with an application for a loan, the regulation of commercial enterprise, including mineral exploration records, unpatented, secret commercially valuable plans, appliances, formulae, or processes, which are used for the making, preparing, compounding, treating, or processing of articles or materials which are trade commodities obtained from a person and which are generally recognized as confidential, or for the grant or review of a license to do business and if openly disclosed would permit an unfair advantage to competitors of the subject enterprise. This exemption shall not, however, apply to records the disclosure or publication of which is directed by other statute.

(c) Public records pertaining to a prospective location of a business or industry where no previous public disclosure has been made of the business' or industry's interest in locating in, relocating within or expanding within the Commonwealth. Provided, however, that this exemption shall not include those records pertaining to application to agencies for permits or licenses necessary to do business or to expand business operations within the state, except as provided in paragraph (b) above.

(d) The contents of real estate appraisals, engineering or feasibility estimates and evaluations made by or for a public agency relative to acquisition of property, until such time as all of the property has been acquired; provided, however, the law of eminent domain shall not be affected by this provision.

(e) Test questions, scoring keys and other examination data used to administer a licensing examination, examination for employment or academic examination before the exam is given or if it is to be given again.

(f) Records of law enforcement agencies or agencies involved in administrative adjudication that were compiled in the process of detecting and investigating statutory or regulatory violations if the disclosure of the information would harm the agency by revealing the identity of informants not otherwise known or by premature release of information to be used in a prospective law enforcement action or administrative adjudication. Unless exempted by other provisions of KRS 61.870 to 61.884, public records exempted under this provision shall be open after enforcement action is completed or a decision is made to take no action. Provided, however that the exemptions provided by this subsection shall not be used by the custodian of the records to delay or impede the exercise of rights granted by KRS 61.870 to 61.884.

(g) Preliminary drafts, notes, correspondence with private individuals, other than correspondence which is intended to give notice of final action of a public agency.

(h) Preliminary recommendations, and preliminary memoranda in which opinions are expressed or policies formulated or recommended.

(i) All public records or information the disclosure of which is prohibited by federal law or regulation.

(j) Public records or information the disclosure of which is prohibited or restricted or otherwise made confidential by enactment of the general assembly.

(2) No exemption in this section shall be construed to prohibit disclosure of statistical information not descriptive of any readily identifiable person.

(3) *No exemption in this section shall be construed to deny, abridge or impede the right of a state employe, an applicant for employment, or an eligible on a register to inspect and to copy any record including preliminary and other supporting documentation that relates to him. Such records shall include, but not be limited to, work plans, job performance, demotions, evaluations, promotions, compensation, transfers,*

layoffs, disciplinary actions, examination scores and preliminary and other supporting documentation. A state employe, applicant or eligible shall not have the right to inspect or to copy any examination.

(4) If any public record contains material which is not excepted under this section, the public agency shall separate the excepted and make the non-excepted material available for examination.

(5)[~~(4)~~] The provisions of this section shall in no way prohibit or limit the exchange of public records or the sharing of information between public agencies when the exchange is serving a legitimate governmental need or is necessary in the performance of a legitimate government function.

SECTION 18. A NEW SECTION OF KRS CHAPTER 344 IS CREATED TO READ AS FOLLOWS:

Section 19. KRS 18A.045 is amended to read as follows:

(1) There is hereby created a personnel board in which shall be vested the constitutional powers and responsibilities of officers of the Commonwealth. The board shall consist of seven (7) members, five (5) of whom shall be appointed by the governor as provided in KRS 18A.050. Two (2) members of the board shall be elected by classified employes as provided in *Section 10 of this Act* [~~KRS 18A.055~~].

(2) Any person retaliating in any manner and any person ordering retaliation against a classified employe or a member of his family because he has participated in an election to the board, either by being a candidate or voting for a candidate, shall be subject to the provisions of KRS 18A.990.

(2) "Natural resource" means all forms of minerals *and non-ornamental forest products* including but not limited to rock, stone, limestone, shale, gravel, sand, clay, *timber harvested for commercial purposes,* natural gas, and natural gas liquids which are contained in or on the soils or waters of this state. For purposes of this chapter, "natural resource" does not include coal and oil which are taxed under KRS 143.020 and 137.120.

(3) "Severing" or "severed" means the physical removal of the natural resource from the earth or waters of this state by any means; however, "severing" or "severed" shall not include the removal of natural gas from underground storage facilities into which the natural gas has been mechanically injected following its initial removal from the earth.

(4) "Taxpayer" means and includes any individual, partnership, joint venture, association, corporation, receiver, trustee, guardian, executor, administrator, fiduciary, or representative of any kind engaged in the business of severing and/or processing natural resources in this state for sale or use. In instances where contracts, either oral or written, are entered into whereby persons, organizations or businesses are engaged in the business of severing and/or processing a natural resource but do not obtain title to or do not have an economic interest therein, the party who owns the natural resource or has an economic interest is the taxpayer.

(5) "Gross value" is synonymous with gross income from property as defined in section 613(c) of the Internal Revenue Code and regulations 1.613-3 and 1.613-4 in effect on December 31, 1977, with the exception that in all instances transportation expense (whether or not by common carrier) incurred in transporting a natural resource shall not be considered as gross income from the property. Gross value is to be reported as follows:

(a) For natural resources severed and/or processed and sold during a reporting period, gross value is the amount received or receivable by the taxpayer.

(b) For natural resources severed and/or processed, but not sold during a reporting period, gross value shall be determined as follows:

1. If the natural resource is to be sold under the terms of an existing contract, the contract price shall be used in computing gross value.

2. If there is no existing contract, the fair market value for that grade and quality of the natural resource shall be used in computing gross value.

(c) In a transaction involving related parties, gross value shall not be less than the fair market value for natural resources of similar grade and quality.

(d) In the absence of a sale, gross value shall be the fair market value for natural resources of similar grade and quality.

(e) If severed natural resources are purchased for the purpose of processing and resale, the gross value is the amount received or receivable during the reporting period reduced by the amount paid or payable to the taxpayer actually severing the natural resource.

(f) If severed natural resources are purchased for the purpose of processing and consumption, the gross value is the fair market value of processed natural resources of similar grade and quality reduced by the amount paid or payable to the taxpayer actually severing the natural resource.

(g) In all instances, the gross value shall not be reduced by any taxes including the tax levied in KRS 143A.020, royalties, sales commissions, or any other expense.

(6) "Processing" shall include but not be limited to breaking, crushing, cleaning, drying, sizing, or loading for shipment. "Processing" shall not include the act of unloading or loading for shipment natural resources that have not been severed, cleaned, broken, crushed, dried, sized or otherwise treated in Kentucky.

(7) "Related parties" means two (2) or more persons, organizations or businesses owned or controlled directly or indirectly by the same interests.

(8) "Economic interest" for the purpose of this chapter is synonymous with the economic interest ownership required by Internal Revenue Code, section 611 in effect on December 31, 1977, entitling the taxpayer to a depletion deduction for income tax purposes with the exception that a party who only receives an arm's length royalty shall not be considered as having an economic interest.

(9) "Charges for transporting" or "transportation expense" shall mean:

(a) The amount paid by a taxpayer to a third party for transporting to a customer natural resources taxed in KRS 143A.020;

(b) The cost incurred by a taxpayer using his own facilities in transporting to a customer natural resources taxed under KRS 143A.020;

WHEREAS, during the past two decades, the General Assembly has experienced significant growth in its independence and its role in the shaping of public policy; and

WHEREAS, the complexities and duties facing state legislatures continue to increase as the state governments assume a growing share of the responsibilities for governance; and

WHEREAS, a thorough assessment of the laws and rules relating to the legislative branch and appropriations thereto should be undertaken and any necessary revisions be proposed therein to assure that the legislative branch is adequately equipped to fulfill its present and anticipated responsibilities;

SCR 91, A CONCURRENT RESOLUTION directing the Legislative Research Commission to study the feasibility of establishing a long-term policy research center for state government.

WHEREAS, state government generally continues to bear the major burden of domestic governance in the United States; and

WHEREAS, the capacity of any government to govern effectively is directly related to its ability to accurately forecast and anticipate future needs and demands, to sort and prioritize competing demands and interests, and to allocate limited resources available to it in the best interest of its citizens; and

WHEREAS, passage of Gramm-Rudman-Hollings will cause continued reductions in federal assistance to state and local governments which when combined with current scarcities of other resources essential to the operation of government have intensified and exacerbated pressures upon state governments to select among competing interests to such an extent that they find it no longer possible to continue the luxury of reacting to problems once they occur, but rather have chosen to anticipate complex issues posed by modern society and to plan policy initiatives that address those issues before they become insurmountable problems in an effort to fulfill their constitutional responsibilities of domestic governance; and

WHEREAS, there exists no system or process within Kentucky state government aimed at improving the anticipatory capabilities of policy and management decision-making whereby policy makers and managers are better equipped to deal with future issues in a more rational, effective and integrated manner; and

WHEREAS, it is within the best interest of the citizens of the Commonwealth that state government provide for early warning of impending changes in the underlying social economic, environmental and technological processes in order that the Commonwealth may sustain its efforts to effectively compete for jobs and limited resources;

NOW, THEREFORE,

Be it resolved by the Senate of the General Assembly of the Commonwealth of Kentucky, the House of Representatives concurring therein:

Section 1. That the Legislative Research Commission is directed to conduct a study on the feasibility of establishing a long-term policy research center for state government.

Section 2. That the study shall include, but not be limited to, the study and analysis of the capacities and capabilities of the legislative and executive branches of state government to: anticipate, analyze and address impending or present issues; assess and evaluate competing interests, establish priorities among competing interests in the best interest of the people; mobilize and allocate limited resources; and plan, develop and implement policies, strategies and programs that sustain and improve the socio-economic well being of the citizens and residents of this state.

Section 3. That the agencies of the executive branch and state universities are directed to cooperate with and offer any assistance to the Commission and its staff in the conduct of this study, and to supply any and all information requested.

Section 4. That a final report of findings and recommendations shall be submitted to the Commission by January 1, 1987.

Section 5. Staff services to be utilized in this study are estimated to cost $25,000, and are to be provided by the Commission from its regular budget, subject to the limitations and other research responsibilities of the Commission.

SCR 97, A CONCURRENT RESOLUTION requesting the Legislative Research Commission through the

Task Force on Small Business to study the impact of other states' domestic preference bidding laws on Kentucky businesses and to determine the desirability of enacting a Kentucky retaliatory statute.

WHEREAS, forty-three states now have some type of domestic preference bidding law; and

WHEREAS, at least six of the seven surrounding states have a domestic preference statute; and

WHEREAS, Kentucky is one of seven states which has no domestic preference statute; and

WHEREAS, Kentucky firms bidding out of state are often penalized in other states when they bid for business in those states; and

WHEREAS, firms from those states which penalize Kentucky firms are given equal footing with Kentucky businesses when they bid on the Commonwealth's business; and

WHEREAS, Kentucky firms and businesses are complaining to members of the Kentucky General Assembly that this state of affairs is grossly unfair to them;

NOW, THEREFORE,

Be it resolved by the Senate of the General Assembly of the Commonwealth of Kentucky, the House of Representatives concurring therein:

Section 1. That the Legislative Research Commission through the Task Force on Small Business be requested and authorized:

(a) To study the impact of other states' domestic preference bidding laws on Kentucky businesses; and

Section 2. That the Task Force on Small Business shall report its findings and recommendations to the Legislative Research Commission not later than November 30, 1987.

(3) Gross receipts from the sale of, and the storage, use or other consumption in this state of, tangible personal property used for the performance of a lump sum, fixed fee contract of public works executed prior to February 5, 1960;

(4) Gross receipts from occasional sales of tangible personal property and the storage, use or other consumption in this state of tangible personal property, the transfer of which to the purchaser is an occasional sale;

(5) Gross receipts from sales of tangible personal property to a common carrier, shipped by the seller via the purchasing carrier under a bill of lading, whether the freight is paid in advance or the shipment is made freight charges collect, to a point outside this state and the property is actually transported to the out-of-state destination for use by the carrier in the conduct of its business as a common carrier;

(6) Gross receipts from sales of tangible personal property made in one (1) cent portions through vending machines;

(7) Gross receipts from sales to any cabinet, department, bureau, commission, board, or other statutory or constitutional agency of the state and gross receipts from sales to counties, cities or special districts as defined in KRS 65.005. This exemption applies only to purchases of property or services for use solely in the government function. A purchaser not qualifying as a governmental agency or unit is not entitled to the exemption even though such purchaser may be the recipient of public funds or grants;

(8) (a) Gross receipts from the sale of sewer services, water and fuel to Kentucky residents for use in heating, water heating, cooking, lighting, and other residential uses. As used in this subsection, "fuel" shall include, but not be limited to, natural gas, electricity, fuel oil, bottled gas, coal, coke and wood. Determinations of eligibility for the exemption shall be made by the revenue cabinet.

Where the service is classified as residential, use other than for "residential" purposes by the customer will not negate the exemption.

(c) The exemption does not apply where charges for sewer service, water and fuel are billed to an owner or operator of a multi-unit residential rental facility or mobile home and recreational vehicle park other than residential classification.

(d) The exemption applies also to residential property which may be held by legal or equitable title, by the entireties, jointly, in common, as a condominium, or indirectly by the stock ownership or membership representing the owner's or member's proprietary interest in a corporation owning a fee or a leasehold initially in excess of ninety-eight (98) years.

SECTION 2. A NEW SECTION OF KRS CHAPTER 141 IS CREATED TO READ AS FOLLOWS:

(1) The purposes of this Act are to encourage capital investment in the Commonwealth of Kentucky, to encourage the establishment or expansion of small business and industry, to provide additional jobs and to encourage the development of new products and technologies in the state through seed and venture capital.

(2) To carry out the purposes of this Act, a Kentucky-based venture capital entity shall be established with the name Commonwealth venture fund to provide financing to business entities including but not limited to corporations and partnerships. The fund shall give preference to Kentucky based entities. The financing may include any combination of equity investments, loans, guarantees and commitments for financing and the amount of financing shall be limited for any one business entity to less than five hundred thousand dollars ($500,000). The panel and its respective staffs will establish guidelines relative to the certification of such qualified entity based on the purposes of this Act. Administrative regulations necessary to carry out the purposes of this Act shall be promulgated and issued by the panel and its respective staffs. SECTION 3. A NEW SECTION OF KRS CHAPTER 141 IS CREATED TO READ AS FOLLOWS:

(1) Subject to Section 4 of this Act, a taxpayer is entitled to a credit against any state tax liability which may be imposed on the taxpayer for any tax year beginning after December 31, 1986, if the taxpayer purchases a qualified investment in the qualified entity. However, a taxpayer may only receive a credit for qualified investments purchased during calendar years 1986, 1987 and 1988. However, the credit carryover may not be used for any tax year that begins on or after January 1, 1992. The amount of the carryover from a tax year shall be reduced to the extent that the carryover is used by the taxpayer to obtain a credit under this Act for any subsequent tax year. A credit based on a qualified investment purchased during 1986 shall be a credit carryover to tax years that begin after December 31, 1986.

SECTION 4. A NEW SECTION OF KRS CHAPTER 141 IS CREATED TO READ AS FOLLOWS:

SECTION 5. A NEW SECTION OF KRS CHAPTER 141 IS CREATED TO READ AS FOLLOWS:

(1) A credit to which a taxpayer is entitled under this Act shall be applied against taxes owed by the taxpayer in the following order:

(c) Third, against the taxpayer's bank and trust company share tax liability or savings and loan tax liability for the tax year;

(d) Fourth, against the taxpayer's corporation license tax for the tax year.

(2) Whenever the tax paid by the taxpayer under any of the above listed tax provisions is a credit against the liability or a deduction in determining the tax base under another Kentucky tax provision, the credit or deduction shall be computed without regard to the credit to which a taxpayer is entitled under this Act.

SECTION 6. A NEW SECTION OF KRS CHAPTER 141 IS CREATED TO READ AS FOLLOWS:

(a) Claim the credit on the taxpayer's annual state tax return or returns in the manner prescribed by the revenue cabinet; and

(b) If the department receives delegation of authority for administration of the underground injection control program under Section 1425 of the Safe Drinking Water Act (Public Law 93-523 as amended), the department may, by regulation, establish a fee or schedule of fees in an amount not to exceed fifty dollars ($50.00) per well, in addition to the fees imposed by paragraph (a) of this subsection, upon each application to drill, deepen or reopen a well for any purpose relating to the production, repressuring or storage of oil or gas, and for each water supply well, observation well, and geological or structure test hole. The fees or schedule of fees to be established by regulation shall not exceed an amount sufficient to recover the costs incurred by the department in administering the underground injection control program less any other state or federal funds which are made available for such purpose.

(c) All money paid to the state treasurer for fees required by paragraph (b) of this subsection shall be for the sole use of the department in the administration of the underground injection control program under Section 1425 of the Safe Drinking Water Act (Public Law 93-523 as amended).

(3) All money paid to the state treasurer for licenses and fees required by KRS 353.500 to 353.720 shall be for the sole use of the department and shall be in addition to any moneys appropriated by the general assembly for the use of the department.

(4) Each application shall be accompanied by a plat, which shows the location and elevation of each well, prepared according to the rules and regulations promulgated under KRS 353.500 to 353.720. The plat shall be certified as accurate and correct by the applicant, a qualified employe of the applicant, a person approved by the department, or an engineer registered in Kentucky, provided that when the location of the well is known to be underlaid by coal-bearing stratum, such plat shall be certified accurate and correct only by an engineer registered in Kentucky. If any plat submitted by an applicant is determined by the department to be materially inaccurate or incomplete, the department may require that a new plat be prepared and submitted either by a

person approved by the director or an engineer registered in Kentucky. The department may further require that all future plats submitted by such an applicant be prepared either by a person approved by the director or an engineer registered in Kentucky.

(5) *In those cases where the lessor of drilling rights is not the owner or owners of the surface of the land to be drilled or to be affected by surface disturbances as a result of the drilling operation, the applicant for a permit to drill shall give notice by certified mail of intent to drill to the property owner or owners of the surface of the land to be drilled. Such notice shall be given no later than the filing of the application with the department for a permit to drill and prior to any site preparation and shall contain a correct copy of the plat required to be submitted with the application.*

(*6*) When any person submits to the department of mines and minerals an application for a permit to drill a well, or to reopen, deepen or temporarily abandon any well which is not covered by surety bond, the department shall except as provided in this section, require from the well operator a bond in the sum of $1,000 in favor of the department of mines and minerals, conditioned that the well upon abandonment shall be plugged in accordance with the rules and regulations of the department and that all records required by the department be filed as specified. The bond shall remain in effect until the plugging of the well is approved by the department, or the bond is released by the department. Any well operator in lieu of such bond may file with the department a blanket bond in a sum of $5,000, covering all wells drilled or to be drilled in the Commonwealth by the principal in the bond, and the acceptance and approval by the department of such blanket bond shall be in full compliance with the above provision requiring an individual well bond. The bond or bonds referred to in this section shall be executed by the well operator as principal and by a corporate surety authorized to do business in the Commonwealth. A deposit in cash shall serve in lieu of either of the above bonds.

(*7*) [~~6~~]Notification in writing to the department by a successor to the well operator with bond as provided in subsection *(6)* [~~(5)~~] that said successor is assuming the obligations of this chapter as to a particular well or wells, will relieve the original permittee of responsibility under this chapter with respect to such well or wells.

(*8*) [~~7~~]If the requirements of subsection *(6)* [~~(5)~~] with respect to proper plugging upon abandonment and submission of all required records on all well or wells have not been complied with within the time limits set by the department or by this chapter, the department shall cause a notice of noncompliance to be served upon the operator by certified mail, addressed to the permanent address shown on the application for a permit. The notice shall specify in what respects the operator has failed to comply with this chapter or the regulations or orders of the department. If the operator has not reached an agreement with the department or has not complied with the requirements set forth by it within forty-five (45) days after mailing of the notice, the bond shall then be forfeited to the department.

(*9*) [~~8~~]When a bond is forfeited pursuant to the provisions of this chapter, the director shall give notice to the attorney general, who shall collect the forfeiture.

(*10*) [9]All sums received through the forfeiture of bonds shall be placed in the state treasury and credited to a special agency account to be designated as the oil and gas well plugging fund. This fund shall be available to the department and may be expended for the plugging of any abandoned wells coming within the authority of the department pursuant to this chapter. The plugging of any well pursuant to this subsection shall not be construed to relieve the operator or any other person from civil or criminal liability which would exist except for such plugging. Any unencumbered and any unexpended balance of this fund remaining at the end of any fiscal year shall not lapse but shall be carried forward for the purpose of the fund until expended or until appropriated by subsequent legislative action.

(*11*) [~~10~~]Upon request by any person applying for a permit for a geological or structure test hole, the department shall keep the location and elevation of said hole confidential until such information is allowed to be released by the person obtaining such permit.

(*12*) [~~11~~]For the purpose of this chapter, "water supply well" shall not include:

(a) Any well for a potable water supply for domestic use or for livestock.

(b) Any water well used primarily for cooling purposes in an industrial process."

(c) If the first line supervisor ceases to be the supervisor of an employe due to the suspension, demotion or dismissal of the first line supervisor, paragraph (b) of this subsection shall not apply.

(d) If the first line supervisor ceases to be an employe's supervisor because the employe transfers, the first line supervisor shall evaluate the employe prior to his transfer, provided he has supervised the employe no less than ninety (90) calendar days prior to notification of his transfer.

1. Demoted to a position commensurate with his abilities; or

2. Terminated.

SECTION 4. A NEW SECTION OF KRS CHAPTER 18A IS CREATED TO READ AS FOLLOWS:

(1) It shall be unlawful to coerce employes who may be or are subject to layoff to resign or retire in lieu of layoff. (4) An employe who is laid off shall be placed on a reemployment register for the class of position from which he was laid off and for any class for which he is qualified. (g) He has used or attempted to use political influence or bribery to secure an advantage in connection with his placement on the register;

(h) He has been convicted of a felony within the preceding five (5) years and his civil rights have not been restored or he has not been pardoned by the governor;

(j) He cannot be located by postal authorities at the last address provided by the employe; or

(k) He has otherwise wilfully violated the provisions of this Act.

(7) When the department is notified by an appointing authority that a laid-off employe has accepted a bona fide offer of appointment to any position, effective on a specified date, his name may be removed from the register for all classes for which the maximum salary is the same as or less than that of the class to which he has been appointed.

(8) When a laid-off employe is removed from a register he shall be notified in writing and shall be notified of his right to appeal to the board under the provisions of KRS 18A.095.

SECTION 5. A NEW SECTION OF KRS CHAPTER 18A IS CREATED TO READ AS FOLLOWS:

Such plan shall contain the name of the employe and the reasons, in detail, for such layoff. Upon approval of the plan by the commissioner and the secretary, the employe shall be notified that he is subject to layoff, and of:

(b) The procedures established by the provisions of this Act for the layoff of employes; and

(c) The rights granted employes subject to layoff and to laid off employes.

(3) (a) An employe subject to layoff shall be transferred to a vacant position of the same pay grade, level of duties and responsibilities within the cabinet. Such position shall be located in the same county as the position from which the employe is subject to layoff;

(b) If such a position is not available, the employe shall be transferred to a vacant position within the cabinet for which he is qualified. Such position shall be located in the same county as the position from which the employe is subject to layoff;

(c) If such a position is not available, the employe shall be notified of all vacant positions for which he is

qualified to take an examination. The employe shall have the right to take an examination for any vacant position within the cabinet for which he is qualified. If he passes the examination he shall be appointed to that position before any applicant or eligible on a register except another laid off employe with greater seniority already on such register.

(4) (a) If no position is available to an employe subject to layoff under the procedure established by subsections (2) and (3) of this section, the appointing authority shall notify the employe and the department.

(b) The department shall coordinate efforts to transfer an employe subject to layoff to another agency.

(5) If no position is available, the employe shall have the right to take an examination for any position for which he is qualified. (1) Prior to a layoff of state employes in the executive branch, required by a projected or actual reduction in tax receipts contemplated under the provisions of subsections (1) and (5) of Section 16 of this Act, each cabinet shall prepare a layoff plan that complies with the provisions of this Act.

(2) Each layoff plan shall provide that a layoff of state employes shall occur only after all other cost saving measures are taken and have failed to alleviate the projected or actual deficit. These measures shall be specified in the plan, in detail, and shall include but not be limited to:

(a) A suspension of appointments, unless the secretary of the cabinet certifies in writing that appointments are required in order to provide services mandated by law and that such appointments cannot be made by transfers of employes within the cabinet;

(b) A reduction or delay of expenditures that would not prevent the provision of services required by law;

(c) Consolidation of offices and job duties that would not prevent the provision of services required by law;

(d) Transfer of funds as provided by the budget reduction plan enacted pursuant to KRS Chapter 48;

(e) Transfer of funds appropriated for or allotted to vacant positions as provided by the budget reduction plan provided for by KRS 48.130, unless it is certified that the positions are essential and cannot be filled in the period during which layoffs are to occur by transfer of employes of the appointing authority;

(g) Transfers of employes within the cabinet as provided by Section 5 of this Act.

(3) Each cabinet shall submit:

Upon approval by the secretary, the layoff plans shall be submitted to the governor for approval.

(4) Upon approval of the plans by the governor, the commissioner shall attempt to transfer employes as provided by Section 5 of this Act. Employes who cannot be so transferred may be laid-off.

(5) If no position is available to an employe subject to layoff under the procedures established by this section, the employe shall be notified in writing that he is to be laid-off effective thirty (30) days after receipt of notice, and of the rights and privileges granted laid-off employes.

(6) When the commissioner and the secretary of finance and administration determine that appointments may be made, and the hiring freeze is ended, laid-off employes shall be hired before any applicant or eligible except laid-off employes already on such registers.

Unless exempted by other provisions of KRS 61.870 to 61.884, public records exempted under this provision shall be open after enforcement action is completed or a decision is made to take no action.

Provided, however that the exemptions provided by this subsection shall not be used by the custodian of the records to delay or impede the exercise of rights granted by KRS 61.870 to 61.884.

(c) Fails to meet performance requirements means that an employe has failed to meet the performance requirements established for the employe's job in at least one (1) category.

(9) An employe who exceeds performance requirements shall be awarded a lump sum payment. Such lump sum payment shall not increase the base salary or wages of the employe.

(h) He has been convicted of a felony within the preceding five (5) years and his civil rights have not been restored or he has not been pardoned by the governor;

(j) He cannot be located by postal authorities at the last address provided by the employe; or

(k) He has otherwise wilfully violated the provisions of this Act.

(7) When the department is notified by an appointing authority that a laid-off employe has accepted a bona fide offer of appointment to any position, effective on a specified date, his name may be removed from the register for all classes for which the maximum salary is the same as or less than that of the class to which he has been appointed.

(8) When a laid-off employe is removed from a register he shall be notified in writing and shall be notified of his right to appeal to the board under the provisions of KRS 18A.095.

Such plan shall contain the name of the employe and the reasons, in detail, for such layoff. Upon approval of the plan by the commissioner and the secretary, the employe shall be notified that he is subject to layoff, and of:

(a) The reason for the layoff;

(b) The procedures established by the provisions of this Act for the layoff of employes; and

(c) The rights granted employes subject to layoff and to laid off employes.

(3) (a) An employe subject to layoff shall be transferred to a vacant position of the same pay grade, level of duties and responsibilities within the cabinet. Such position shall be located in the same county as the position from which the employe is subject to layoff;

(b) If such a position is not available, the employe shall be transferred to a vacant position within the cabinet for which he is qualified. Such position shall be located in the same county as the position from which the employe is subject to layoff;

(c) If such a position is not available, the employe shall be notified of all vacant positions for which he is qualified to take an examination. The employe shall have the right to take an examination for any vacant position within the cabinet for which he is qualified. If he passes the examination he shall be appointed to that position before any applicant or eligible on a register except another laid off employe with greater seniority already on such register.

(4) (a) If no position is available to an employe subject to layoff under the procedure established by subsections (2) and (3) of this section, the appointing authority shall notify the employe and the department.

(b) The department shall coordinate efforts to transfer an employe subject to layoff to another agency.

(5) If no position is available, the employe shall have the right to take an examination for any position for which he is qualified. (1) Prior to a layoff of state employes in the executive branch, required by a projected or actual reduction in tax receipts contemplated under the provisions of subsections (1) and (5) of Section 16 of this Act, each cabinet shall prepare a layoff plan that complies with the provisions of this Act.

(2) Each layoff plan shall provide that a layoff of state employes shall occur only after all other cost saving measures are taken and have failed to alleviate the projected or actual deficit. These measures shall be specified in the plan, in detail, and shall include but not be limited to:

(a) A suspension of appointments, unless the secretary of the cabinet certifies in writing that appointments are required in order to provide services mandated by law and that such appointments cannot be made by transfers of employes within the cabinet;

(b) A reduction or delay of expenditures that would not prevent the provision of services required by law;

(c) Consolidation of offices and job duties that would not prevent the provision of services required by law;

(18) (a) [~~Upon such review, both~~] The appealing employe and the appointing authority whose action is reviewed shall have the right to be heard publicly and to be represented by counsel to present evidentiary facts.

(b) Except as provided herein, an appeal shall be decided by the board only after a hearing. The board shall not deny, reject or sustain an appeal, or make any other determination relating to an appeal, except after a hearing is conducted pursuant to the provisions of this Act.

(c) The board may deny a hearing to an employe who has failed to file an appeal within the time prescribed by this Act; and, to an unclassified employe who has failed to state the cause for which he has been dismissed. The board shall notify the employe of its denial in writing and shall inform the employe of his right to appeal such denial under the provisions of KRS 18A.100.

(d) Any investigation by the board of any matter related to an appeal filed by an employe shall be conducted only upon notice to the employe, the employe's counsel, and the appointing authority. All parties to the appeal shall have access to information produced by such investigations and such information shall be presented at the hearing. Any party to the hearing shall be permitted an adequate opportunity to rebut or comment upon such information.

(e) Each appeal shall be decided on its merits.

(19) At the hearing of such appeals, technical rules of evidence shall not apply. *Upon its own motion or upon request by a party, the board may require the production by a party, a state employe or a state agency of documents, records and other material relevant to the appeal.*

(20) Each appeal shall be decided individually unless otherwise agreed by the parties and the board. The board shall not:

(a) Employ class action procedures; or

(21) Except as authorized by law, board members and employes of the board shall neither initiate, participate in, nor consider ex parte or other communications concerning a pending or impending proceeding before the board. Board members shall abstain from public comment about a pending or impending proceeding before the board, and shall require similar abstention on the part of board personnel subject to the board's direction and control. This shall not prohibit board members from making public statements in the course of their official duties or from explaining for public information the procedures of the board.

(22) (a) An appeal to the board may be heard by:

1. The full board;

2. Two (2) board members;

3. A member of the board and a hearing officer; or

4. The general counsel of the board and either a member of the board or a hearing officer [~~individual members of the board, by its executive director or by a hearing officer of the board~~].

(b) Any appeal heard by less than the full board shall be *reviewed by the full board before a final order of the board is issued.*

1. Prior to a final order of the board, the board shall provide a copy of the findings of fact and recommendations to the parties to the appeal and shall provide them with an opportunity to submit written exceptions and responses to such findings of fact and recommendations. At the request of a party or on its own motion, the board shall permit oral argument before the full board. Such request shall be filed with the board within fifteen (15) days of the recommended order issued by a member, the executive director, or a hearing officer.

2. The board shall review the record of the evidence presented, the findings of fact and recommendations of the hearing officer, and the written exceptions and responses filed by parties to the appeal [~~subject to review by the full board upon petition for such review by either party to the appeal. Petition for review by the full board shall be filed with the board within thirty (30) days of the recommended order issued by a member, the executive director, or a hearing officer~~].

(c) If the board finds that the action complained of was taken by the appointing authority in violation of laws prohibiting favor for, or discrimination against, or bias with respect to his political or religious opinions or affiliations or ethnic origin, or in violation of laws prohibiting discrimination because of such individual's sex or age or handicap, the appointing authority shall, not later than thirty (30) days after receipt of such findings and recommendations, reinstate the employe to his former position or a position of like status and pay, without loss of pay for the period of his penalization, or otherwise make the employe whole.

(d) If the board finds that the action complained of was taken without just cause, the board shall order the employe reinstated to his former position or a position of like status and pay, without loss of pay for the period of his penalization, or otherwise make the employe whole.

(e) [~~In all other cases,~~] If the board finds that the action taken by the appointing authority was excessive or erroneous in view of all the surrounding circumstances, the board shall alter, modify or rescind the disciplinary action.

(f) In all other cases, the board shall rescind the action taken or otherwise grant such other relief to which the employe is entitled.

(g) The appointing authority shall, not later than thirty (30) days after receipt of the final order of the board, comply with such final order. When any employe is dismissed and not ordered reinstated after such appeal, the board in its discretion may direct that his name be placed on an appropriate reemployment list, for employment in any similar position other than the one from which he had been removed.

(23) After a final decision has been rendered by the board or court, an employe who prevails in his appeal shall be credited with the amount of leave time used for time spent at his hearing before the board or court. Employes who had an insufficient amount of leave time shall be credited with leave time equal to the amount of time spent at their hearings before the board or court.

[~~(2) Any unclassified employe who is dismissed without cause shall not have the right of appeal as provided in this section.~~]

(24)[~~(3)~~] The board shall, within sixty (60) days after an appeal is filed, hear the appeal, and shall, within ninety (90) days after an appeal is filed, issue a final determination for the disposition thereof.

(4) For promotions which shall give appropriate consideration to the applicant's qualifications, record of performance, conduct and seniority. *Except as provided by this Act,* vacancies shall be filled by promotion whenever practicable and in the best interest of the service;

(5) *As provided by this Act,* for the establishment of eligible lists for appointment, upon which lists shall be placed the names of successful candidates in the order of their relative excellence in the respective examinations. *Except as provided by this Act,* eligibility lists shall expire automatically at the end of two (2) years, unless the life of a list is extended by action of the board for a period not to exceed one (1) additional year;

(6) For the rejection of candidates or eligibles who fail to comply with reasonable requirements of the commissioner in regard to such factors as age, physical condition, training and experience[~~, or who have been guilty of infamous or disgraceful conduct~~]; who are addicted to alcohol to excess or to narcotics, or who have attempted any deception or fraud in connection with an examination;

Unless the appointing authority notifies the employe prior to the end of the probationary period that the employe's services are not satisfactory, the employe shall have status in the classified service. The notice shall be in writing and as provided by personnel rules~~];

(9) For emergency employment for not more than thirty (30) working days with or without examination, with the consent of the commissioner;

(10) For provisional employment without competitive examination when there is no appropriate eligible list available. No such provisional employment shall continue longer than six (6) months, nor shall successive provisional appointment be allowed to the same position;

(11) For transfer from a position in one (1) department to a similar position in another department involving similar qualifications, duties, responsibilities, and salary [~~ranges~~];

(12) For reinstatement within not more than five (5) years, only with the approval of the commissioner, of persons who resign in good standing or who are laid off from their positions without fault or delinquency on their part *as provided by this Act*;

(13) For developing, in *accordance with provisions of this Act* [~~cooperation with the appointing authorities~~], uniform standards and methods of appraising work performance of all employes and for the use of such methods of appraisal in personnel actions;

(14) *In accordance with the provisions of this Act,* for layoffs by reasons of lack of funds or work, or abolishment of a position, or material change in duties or organization, and for reinstatement of employes so laid off[~~, giving consideration in both layoffs and reemployment to qualifications, performance records, conduct and seniority in service~~];

(16) For discharge or reduction in rank or grade *as provided by this Act* [~~only for cause, after the person to be discharged or reduced has been presented with the reasons for such discharge or reduction stated in writing, and has been allowed a reasonable time to reply thereto in writing, or, upon request, to appear personally with counsel and reply to the head of the department or his deputy. The statement of reasons and the reply shall be filed as a public record with the commissioner~~];

(17) For establishment of a plan for resolving employe grievances and complaints *that does not restrict rights granted under this Act*;

(18) For annual, sick and special leaves of absence, with or without pay, or reduced pay, after approval by the governor as provided in subsection (2) of KRS 18A.075;

(19) For the development and operation of programs to improve the work effectiveness of employes in the state service, including training, whether in-service or compensated educational leave, safety, health, welfare, counseling, recreation, and employe relations;

(20) For promotion of career employes to positions in the unclassified service without loss of status to the individual employes so promoted;

(21) For such other rules and administrative regulations not inconsistent with *this Act and KRS Chapter 13A* [~~KRS 18A.005 to 18A.200~~], as may be proper and necessary for its enforcement.

Section 15. KRS 18A.355 is amended to read as follows:

The annual increment shall be uniform for all employes. The financial plan enacted under the provisions of KRS 48.300 [~~and 48.500~~] shall contain the annual increment expressed as a percentage of each employe's gross salary or wages, and the total appropriation needed to fund the annual increment.

(3) The budget reduction plan submitted and enacted under the provisions of KRS Chapter 48 shall provide that a reduction of the annual increment granted under this section shall be made only after other cost savings measures, as provided by subsection (2) of Section 6 of this Act, are taken. Any such reduction shall be uniform for all state employes and shall comply with the provisions of this Act and KRS Chapter 48.

Section 16. KRS 48.130 is amended to read as follows:

(1) The branch budget recommendation submitted by each branch of government shall include a plan for the reduction of the respective budget recommendations, by budget unit, when projected or actual tax receipts accruing to the general fund or road fund are at least two and one-half percent (2 1/2%) but not more than five percent (5%) less than the revenue estimates for these funds as determined under subsection (3) of KRS 48.120.

(2) *(a)* In recommending budget reductions, the governor, the chief justice, and the legislative research commission shall not recommend universal percentage reductions but shall weigh the needs of all budget units and shall strive to protect the highest possible level of service in their respective branches. Services which are not essential to constitutional functions shall be subject to reduction. Transfer of funds may be authorized by the budget reduction plan.

(b) In recommending budget reductions for the executive branch, the budget reduction plan provided for by subsection (1) of this section shall comply with subsections (1) through (3) of Section 6 of this Act.

(c) A layoff of state employes in the executive branch under the budget reduction plan enacted by the general assembly shall comply with the provisions of Sections 4 and 6 of this Act.

(3) The plan shall be enacted as modified by the general assembly, in each joint budget resolution.

(4) In the event of an actual or projected deficit in tax receipts provided for by this section, the department of revenue shall notify all branches of government:

(a) If funds that have accrued to the surplus accounts of the general or road funds are not sufficient to meet these deficits, the allotments to the respective branches shall be reduced according to the reduction provisions embodied in the joint budget resolution, and the governor, the chief justice, and the legislative research commission shall automatically implement budget reductions for their respective branches according to the reduction provisions embodied in the joint budget resolution*; and* [~~.~~]

(b) In the event funds that have accrued to the surplus accounts of the general or road funds are sufficient to meet these deficits, transfers from these surplus accounts shall be made, as appropriate, and the budget reduction provisions embodied in the joint budget resolution shall not be implemented.

(5) In the event of an actual or projected deficit in tax receipts provided for by this section of less than two and one-half percent (2 1/2%), the governor, the chief justice, and the legislative research commission shall implement budget reductions for their respective branches on their own initiative.

(6) *The budget reduction plan shall provide that the annual increment granted state employes under Section 15 of this Act shall be reduced as provided by this Act. Any such reduction of the annual increment shall be uniform for all employes.*

(8)[~~(7)~~] This section shall not preclude the general assembly, in regular or special session, from amending a

joint budget resolution requiring budget reductions nor shall it preclude the governor from calling a special session of the general assembly at any time the budget reduction plan is in effect.

Section 17. KRS 61.878 is amended to read as follows:

(1) The following public records are excluded from the application of KRS 61.870 to 61.884 and shall be subject to inspection only upon order of a court of competent jurisdiction:

(b) Records confidentially disclosed to an agency and compiled and maintained for scientific research, in conjunction with an application for a loan, the regulation of commercial enterprise, including mineral exploration records, unpatented, secret commercially valuable plans, appliances, formulae, or processes, which are used for the making, preparing, compounding, treating, or processing of articles or materials which are trade commodities obtained from a person and which are generally recognized as confidential, or for the grant or review of a license to do business and if openly disclosed would permit an unfair advantage to competitors of the subject enterprise. This exemption shall not, however, apply to records the disclosure or publication of which is directed by other statute.

(c) Public records pertaining to a prospective location of a business or industry where no previous public disclosure has been made of the business' or industry's interest in locating in, relocating within or expanding within the Commonwealth. (f) Records of law enforcement agencies or agencies involved in administrative adjudication that were compiled in the process of detecting and investigating statutory or regulatory violations if the disclosure of the information would harm the agency by revealing the identity of informants not otherwise known or by premature release of information to be used in a prospective law enforcement action or administrative adjudication. Unless exempted by other provisions of KRS 61.870 to 61.884, public records exempted under this provision shall be open after enforcement action is completed or a decision is made to take no action. Provided, however that the exemptions provided by this subsection shall not be used by the custodian of the records to delay or impede the exercise of rights granted by KRS 61.870 to 61.884.

(g) Preliminary drafts, notes, correspondence with private individuals, other than correspondence which is intended to give notice of final action of a public agency.

(h) Preliminary recommendations, and preliminary memoranda in which opinions are expressed or policies formulated or recommended.

(i) All public records or information the disclosure of which is prohibited by federal law or regulation.

(j) Public records or information the disclosure of which is prohibited or restricted or otherwise made confidential by enactment of the general assembly.

(2) No exemption in this section shall be construed to prohibit disclosure of statistical information not descriptive of any readily identifiable person.

(3) *No exemption in this section shall be construed to deny, abridge or impede the right of a state employe, an applicant for employment, or an eligible on a register to inspect and to copy any record including preliminary and other supporting documentation that relates to him. Such records shall include, but not be limited to, work plans, job performance, demotions, evaluations, promotions, compensation, transfers, layoffs, disciplinary actions, examination scores and preliminary and other supporting documentation. (5)[~~(4)~~] The provisions of this section shall in no way prohibit or limit the exchange of public records or the sharing of information between public agencies when the exchange is serving a legitimate governmental need or is necessary in the performance of a legitimate government function.

"Section 2. KRS 161.030 is amended to read as follows:

(1) The certification of all teachers and other school personnel is vested in the state board of education. When so certified, teachers and other school personnel shall not be required to have licensure, certification, or other forms of approval from any other state agency for the performance of their respective assignments within the common schools. All certificates authorized under KRS 161.010 to 161.126 shall be issued in accordance with the published rules and regulations of the state board of education.

(2) In the case of nontax supported schools, standards for teacher certification shall provide for the certification without further educational requirements of any administrator, supervisor, or teacher who has earned a bachelor's degree from a standard college or university.

(3) Certificates shall be issued to persons who have completed, at such colleges and universities as have been approved by the state board of education for the preparation of teachers and other school personnel, the curricula prescribed by the Kentucky council on teacher education and certification and approved by the state board of education for the certificates.

(4) Effective January 1, 1985, initial certification of all new teachers shall require the successful completion of appropriate written tests prior to certification. The tests shall be selected by the state board of education and shall measure communication skills, general knowledge, professional education concepts and knowledge in the specific teaching field of the applicant. The state board of education shall determine the minimum acceptable level of achievement on each test. The tests shall measure those concepts, ideas, and facts which are being taught in teacher education programs in Kentucky. Upon successful completion of the tests and the approved teacher preparation program, a certificate valid for one (1) year shall be issued.

(5) A reasonable fee to be paid by the teacher and directly related to the actual cost of the administration of the tests shall be established by the state board of education. Provisions shall be made for persons having less than minimum levels of performance on any test to repeat that test, and candidates shall be informed of their strengths and weaknesses in the specific performance areas. The department of education shall provide for confidentiality of the individual assessment scores. Scores shall be available only to the candidate and to the education officials who are responsible for determining whether established certification standards have been met. Scores shall be used only in the assessment for certification of new teachers and of out-of-state teachers with less than five (5) years of teaching experience who are seeking initial certification in Kentucky.

(6) Effective January 1, 1985, all new teachers and out-of-state teachers with less than five (5) years of successful teaching experience who are seeking initial certification in Kentucky shall serve a one-year internship. The teacher shall be a full-time employe with supervision, assistance, and assessment during the one-year internship. Successful completion shall be determined by a majority vote of the beginning teacher committee. The internship period shall be counted as experience for the purpose of continuing contract status, retirement eligibility and benefits for single salary experience increments. Upon successful completion of the beginning teacher program the one-year initial teaching certificate shall be extended for the remainder of the usual duration period established for that particular certificate by state board of education regulations.

(7) The beginning teacher committee shall be composed of three (3) persons who have received special training in the supervision and assessment of the performance of beginning teachers as provided in subsection (9) of this section. The committee shall consist of a resource teacher, the school principal of the school where the internship is served, and a teacher educator from a state-approved teacher training institution to be appointed by the president of that institution. In the event the teacher training institution is unable to provide a member, the district superintendent shall appoint an instructional supervisor from the school district. The resource teacher shall be appointed by the department of education from a pool of qualified resource teachers. Priority shall be given to resource teachers with the same certification as the teacher intern in the following order: (1) teachers in the same school, (2) teachers in the same district, and (3) teachers statewide. The committee shall meet with the beginning teacher a minimum of three (3) times per year for evaluation and recommendation with all committee members present. In addition, each member of the committee shall observe the beginning teacher in the classroom a minimum of three (3) times per year. If the teacher's first year performance is judged by the committee to be less than satisfactory, the teacher shall be provided with an opportunity to repeat the internship one (1) time if the teacher is employed by a school district.

(8) The resource teacher shall spend a minimum of seventy (70) hours working with the beginning teacher; twenty (20) of these hours shall be observing the beginning teacher in the classroom setting; fifty (50) of these hours shall be in consultation other than class time or attending assessment meetings. The resource teacher shall have completed at least four (4) years of successful teaching experience as attested to by his or her immediate supervisor or by having achieved tenure and be able to show evidence of continuing professional development by having achieved a master's degree or its equivalent or the accumulation of two thousand (2,000) hours of continuing professional activities.

(9) By contract with teacher education institutions in the Commonwealth, the superintendent of public instruction shall provide training for persons who will be serving on the beginning teacher committees.

(10) In the event an applicant establishes eligibility for a one-year certificate under the provisions of subsection (4) of this section, but does not become employed on the full-time basis needed to satisfy the one-year internship requirement, the applicant shall be eligible for the issuance of a certificate for substitute teaching as provided by the regulations of the state board of education. The applicant shall remain eligible for the one-year certificate as provided in paragraph (4) and for the opportunity to serve the internship for a period of four (4) years after establishing eligibility. If the internship is not completed within the four (4) year period, the applicant must re-establish eligibility by repeating and passing the testing program in effect for new teachers at that time.

(11) The state board of education shall approve the curricula of any standard college or university, or of any department thereof for the training of teachers, when the curricula comply with the rules and regulations of the state board of education and are equivalent to the curricula prescribed for the state institutions for the issuance of certificates and when the institution has met the terms and conditions provided in KRS 161.010 to 161.120. Any student who has completed any of these curricula or the equivalent thereof, as approved by the state board of education, and who has completed the prescribed requirements for the issuance of certificates for teaching to students of the state institutions maybe granted a certificate for teaching of the same validity and tenure as certificates issued to students completing like requirements in the state institutions.

(12) The state department of education shall permit school districts that annually employ more than fifty (50) intern teachers to develop, implement and test alternative programs for selecting and training committees for intern teachers and for evaluating intern teachers.

Section 3. KRS 161.122 is amended to read as follows:

(1) No later than October 18, 1985, the governor shall appoint a twenty-two (22) member commission to oversee the implementation of a pilot program designed to test the feasibility of operating a statewide career ladder system for teachers. It is recommended that the commission be composed of:

(a) Two (2) public school superintendents;

(b) Two (2) public school principals;

(c) Six (6) public school teachers;

(d) Two (2) public school board members; and

(e) Ten (10) representatives of the lay public to be selected from persons who are interested in education but who are not professional educators.

(2) The governor shall appoint a member to serve as chairman. The commission shall meet as often as necessary but no less than two (2) times per year. The commission members shall be reimbursed for their actual expenses incurred in the regular business of the commission in accordance with state regulations.

(3) The commission shall be responsible for general policy decisions that are required for the pilot program and by September 1, 1988 shall submit a report of the findings of the career ladder pilot program with a recommendation regarding a statewide career ladder program to the governor, the state board of education, the legislative research commission, and the interim joint committee on education.

(4) The commission shall be attached to the department of education for administrative purposes. The commission shall employ a research director and other personnel as may be needed. Researchers trained in empirical analysis shall be utilized as necessary.

(5) The commission shall initiate a two (2) year pilot program designed to test the feasibility of operating a statewide system to identify and reward excellent teachers and provide reliable information for making decisions on a teacher career incentive program. The pilot program shall be based on the career ladder plan specified in the July, 1985 report to the governor by the Kentucky career ladder committee and shall test the assertions specified in the report.

(6) (a) The pilot program shall be conducted in [~~five (5) to ten (10)~~] voluntary local school districts which represent no more than five (5) percent of the state's teachers and are selected to obtain a representative sample according to the following considerations:

1. Geographic distribution;

2. Districts which are below average, average and above average in size;

3. County and independent districts; and

4. Elementary, secondary and special area teachers;

(b) Participating districts shall be selected by July 1, 1986. To prevent the omission of districts which are significantly above average in size, the commission is authorized to select individual schools in those districts in order to maintain the representative sample as set forth in paragraph (a) of this subsection. When so certified, teachers and other school personnel shall not be required to have licensure, certification, or other forms of approval from any other state agency for the performance of their respective assignments within the common schools. All certificates authorized under KRS 161.010 to 161.126 shall be issued in accordance with the published rules and regulations of the state board of education.

(2) In the case of nontax supported schools, standards for teacher certification shall provide for the certification without further educational requirements of any administrator, supervisor, or teacher who has earned a bachelor's degree from a standard college or university.

(3) Certificates shall be issued to persons who have completed, at such colleges and universities as have been approved by the state board of education for the preparation of teachers and other school personnel, the curricula prescribed by the Kentucky council on teacher education and certification and approved by the state board of education for the certificates.

(4) Effective January 1, 1985, initial certification of all new teachers shall require the successful completion of appropriate written tests prior to certification. The tests shall be selected by the state board of education and shall measure communication skills, general knowledge, professional education concepts and knowledge in the specific teaching field of the applicant. The state board of education shall determine the minimum acceptable level of achievement on each test. The tests shall measure those concepts, ideas, and facts which are being taught in teacher education programs in Kentucky. Upon successful completion of the tests and the approved teacher preparation program, a certificate valid for one (1) year shall be issued.

(5) A reasonable fee to be paid by the teacher and directly related to the actual cost of the administration of the tests shall be established by the state board of education. Provisions shall be made for persons having less than minimum levels of performance on any test to repeat that test, and candidates shall be informed of their strengths and weaknesses in the specific performance areas. The department of education shall provide for confidentiality of the individual assessment scores. Scores shall be available only to the candidate and to the education officials who are responsible for determining whether established certification standards have been met. Scores shall be used only in the assessment for certification of new teachers and of out-of-state teachers with less than five (5) years of teaching experience who are seeking initial certification in Kentucky.

(6) Effective January 1, 1985, all new teachers and out-of-state teachers with less than five (5) years of successful teaching experience who are seeking initial certification in Kentucky shall serve a one-year internship. The teacher shall be a full-time employe with supervision, assistance, and assessment during the one-year internship. Successful completion shall be determined by a majority vote of the beginning teacher committee. The internship period shall be counted as experience for the purpose of continuing contract status, retirement eligibility and benefits for single salary experience increments. Upon successful completion of the beginning teacher program the one-year initial teaching certificate shall be extended for the remainder of the usual duration period established for that particular certificate by state board of education regulations.

(7) The beginning teacher committee shall be composed of three (3) persons who have received special training in the supervision and assessment of the performance of beginning teachers as provided in subsection (9) of this section. The committee shall consist of a resource teacher, the school principal of the school where the internship is served, and a teacher educator from a state-approved teacher training institution to be appointed by the president of that institution. In the event the teacher training institution is unable to provide a member, the district superintendent shall appoint an instructional supervisor from the school district. The resource teacher shall be appointed by the department of education from a pool of qualified resource teachers. Priority shall be given to resource teachers with the same certification as the teacher intern in the following order: (1) teachers in the same school, (2) teachers in the same district, and (3) teachers statewide. The committee shall meet with the beginning teacher a minimum of three (3) times per year for evaluation and recommendation with all committee members present. In addition, each member of the committee shall observe the beginning teacher in the classroom a minimum of three (3) times per year. If the teacher's first year performance is judged by the committee to be less than satisfactory, the teacher shall be provided with an opportunity to repeat the internship one (1) time if the teacher is employed by a school district.

(8) The resource teacher shall spend a minimum of seventy (70) hours working with the beginning teacher; twenty (20) of these hours shall be observing the beginning teacher in the classroom setting; fifty (50) of these hours shall be in consultation other than class time or attending assessment meetings. The resource teacher shall have completed at least four (4) years of successful teaching experience as attested to by his or her immediate supervisor or by having achieved tenure and be able to show evidence of continuing professional development by having achieved a master's degree or its equivalent or the accumulation of two thousand (2,000) hours of continuing professional activities.

(9) By contract with teacher education institutions in the Commonwealth, the superintendent of public instruction shall provide training for persons who will be serving on the beginning teacher committees.

(10) In the event an applicant establishes eligibility for a one-year certificate under the provisions of subsection (4) of this section, but does not become employed on the full-time basis needed to satisfy the one-year internship requirement, the applicant shall be eligible for the issuance of a certificate for substitute teaching as provided by the regulations of the state board of education. The applicant shall remain eligible for

the one-year certificate as provided in paragraph (4) and for the opportunity to serve the internship for a period of four (4) years after establishing eligibility. If the internship is not completed within the four (4) year period, the applicant must re-establish eligibility by repeating and passing the testing program in effect for new teachers at that time.

(11) The state board of education shall approve the curricula of any standard college or university, or of any department thereof for the training of teachers, when the curricula comply with the rules and regulations of the state board of education and are equivalent to the curricula prescribed for the state institutions for the issuance of certificates and when the institution has met the terms and conditions provided in KRS 161.010 to 161.120. Any student who has completed any of these curricula or the equivalent thereof, as approved by the state board of education, and who has completed the prescribed requirements for the issuance of certificates for teaching to students of the state institutions maybe granted a certificate for teaching of the same validity and tenure as certificates issued to students completing like requirements in the state institutions.

(12) The state department of education shall permit school districts that annually employ more than fifty (50) intern teachers to develop, implement and test alternative programs for selecting and training committees for intern teachers and for evaluating intern teachers.

WHEREAS, Ashland Oil, Inc., Kentucky's largest corporation, is threathened with a takeover, against its will, by Canadian investors; and

HB 589, AN ACT relating to abortion.

WHEREAS, it is in the interest of the people of the Commonwealth of Kentucky to protect minors against their own immaturity, foster the family structure and preserve it as a viable social unit, and protect the rights of parents to rear children who are members of their household; and

WHEREAS, immature minors often lack the ability to make fully informed choices that take account of both immediate and long range consequences; and

WHEREAS, the medical, emotional and psychological consequences of abortion are serious and can be lasting, particularly when the patient is immature; and

WHEREAS, the capacity to become pregnant and the capacity for mature judgment concerning the wisdom of an abortion are not necessarily related; and

WHEREAS, parents ordinarily possess information essential to a physician's exercise of best medical judgment concerning the child; and

WHEREAS, parents who are aware their minor daughter has had an abortion may better ensure that she receives adequate medical attention after her abortion; and

WHEREAS, parental consultation is usually desirable and in the best interests of the minor;

NOW, THEREFORE,

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 311.732 is amended to read as follows:

(1) *For purposes of this section the following definitions shall apply:*

(a) "Minor" means any person under the age of eighteen (18);

(b) "Emancipated minor" means any minor who is or has been married or has by court order or otherwise been freed from the care, custody, and control of her parents; and

(c) "Abortion" means the use of any instrument, medicine, drug or any other substance or device with intent to terminate the pregnancy of a woman known to be pregnant with intent other than to increase the probability of a live birth, to preserve the life or health of the child after live birth, or to remove a dead fetus.

(2) No person shall perform an abortion upon a minor unless:

(a) The attending physician or his agent secured the informed written consent, signed and notarized, of the minor and both parents, if available, or legal guardian; or

(b) If both parents are not available, the attending physician or his agent has secured such written consent from the minor and the available parent or guardian; or

(c) The minor is emancipated and the attending physician or his agent has received the informed written consent, signed and notarized, of the minor; or

(d) The minor elects to petition any circuit or district court of the Commonwealth pursuant to subsection (3) of this section and obtain an order pursuant to subsection (4) of this section granting consent to the abortion and the attending physician or his agent has received the informed written consent, signed and notarized, of the minor.

(3) Every minor shall have the right to petition any circuit or district court of the Commonwealth for an order granting the right to self-consent to an abortion pursuant to the following procedures:

(a) The minor or her next friend may prepare and file a petition setting forth the request of the minor for an order of consent to an abortion.

(b) The court shall insure that the minor prepare or her next friend is given assistance in preparing and filing the petition and shall insure that the minor's identity is kept anonymous.

(c) The minor may participate in proceedings in the court on her own behalf or through her next friend and the court shall appoint a guardian ad litem for her. The court shall advise her that she has a right to court appointed counsel and shall provide her with such counsel upon her request.

(d) All proceedings under this section shall be anonymous and shall be given preference over other matters to insure that the court may reach a decision promptly, but in no case shall the court fail to rule within seventy-two (72) hours of the time of application, provided that the seventy-two (72) hour limitation may be extended at the request of the minor.

(e) The court shall hold a hearing on the merits of the petition before reaching a decision. The court shall hear evidence at the hearing relating to the emotional development, maturity, intellect and understanding of the minor; the nature, possible consequences and alternatives to the abortion; and any other evidence that the court may find useful in determining whether the minor should be granted majority rights for the purpose of consenting to the abortion or whether the abortion is in the best interest of the minor.

(4) The court shall enter a written order, making specific factual findings and legal conclusions supporting its decision as follows:

(a) Granting the petition for an abortion if the court finds that the minor is mature and well-informed enough to make the abortion decision on her own; or

(b) Granting consent to the abortion if the court finds that the performance of the abortion would be in the minor's best interest; or

(c) Deny the petition, if the court finds that the minor is immature and that performance of the abortion would not be in the minor's best interest.

(5) Any minor shall have the right of anonymous and expedited appeal to the Court of Appeals, and that court shall give precedence over other pending matters.

(6) No fees shall be required of any minor who declares she has no sufficient funds to pursue the procedures provided by this section.

(7) The Supreme Court is respectfully requested to promulgate any rules and regulations it feels are necessary to ensure that proceedings under this section are handled in an expeditious and anonymous manner.

(8) The requirements of subsections (2), (3), and (4) of this section shall not apply when, in the best medical judgment of the physician based on the facts of the case before him, a medical emergency exists that so complicates the pregnancy as to require an immediate abortion. A physician who does not comply with subsection (2), (3), or (4) of this section due to the utilization of this exception shall certify in writing the medical indications upon which his judgment was based.

(9) A report indicating the basis for any medical judgment that warrants failure to obtain consent pursuant to this section shall be filed with the cabinet for human resources on a form supplied by the cabinet. This report shall be confidential.

(10) Failure to obtain consent pursuant to the requirements of this section is prima facie evidence of failure to obtain informed consent and of interference with family relations in appropriate civil actions. The law of this state shall not be construed to preclude the award of exemplary damages in any appropriate civil action relevant to violations of this section. Nothing in this section shall be construed to limit the common law rights of parents [~~If a pregnant woman is less than eighteen (18) years of age and not emancipated, or if she has been adjudged an incompetent under KRS Chapter 387, a physician shall not perform an abortion upon her unless he first obtains the consent of both the pregnant woman and that of her parents, if she is less than eighteen (18), or of her guardian, if she is an incompetent, except as hereinafter provided. In deciding whether to grant consent, a pregnant woman's parents or guardian shall consider only the child's or ward's best interests.~~

~~(2) If one of the pregnant woman's parents has died or is unavailable to the physician within a reasonable time and in a reasonable manner, consent of the remaining parent shall be sufficient. If both parents have died or are otherwise unavailable to the physician within a reasonable time and in a reasonable manner, consent of the pregnant woman's guardian or guardians shall be sufficient. If the pregnant woman's parents are divorced, consent of the parent having custody shall be sufficient. If neither a parent nor a legal guardian is available to the physician within a reasonable time and in a reasonable manner, consent of any adult person standing in loco parentis shall be sufficient.~~

~~(3) If one (1) or both of the parents or guardians of the pregnant woman refuse to consent to the performance of an abortion, or if she elects not to seek the consent of one (1) or both of her parents or guardians, the appropriate circuit court in the county in which the applicant resides or in which the abortion is sought shall upon petition or motion, after an appropriate hearing, authorize a physician to perform the abortion if the court determines that the pregnant woman is sufficiently mature or competent to give informed consent to the proposed abortion.~~

~~(4) If the court determines that the pregnant woman is not sufficiently mature or competent to give informed consent or if the pregnant woman does not claim to be sufficiently mature or competent to give informed consent to the proposed abortion, the court shall determine whether the performance of an abortion would be in her best interests. The court shall not decide until after parental consultation in which the court may participate, if consultation is possible within a reasonable time and in a reasonable manner, unless the court concludes the pregnant woman's best interests would not be served by its participation in the consultation. Whether or not there has been parental consultation, the court shall deny the abortion if it decides that the pregnant woman's best interests would be served by denial, or shall authorize a physician to perform the abortion if it concludes that the pregnant woman's best interests would be served by authorization.~~

~~(5) The pregnant woman may participate in court proceedings on her own behalf, and the court may appoint a guardian ad litem for her. The court shall advise her that she has a right to court-appointed counsel, and shall, upon her request, appoint counsel.~~

~~(6) Court proceedings under this section shall be confidential and shall be given precedence over other pending matters to ensure a prompt decision to serve the best interests of the pregnant woman. The court shall make specific factual findings and legal conclusions supporting its decision and shall order a record of the evidence to be maintained which shall include its findings and conclusions.~~

~~(7) The requirements of subsection (1) of this section shall not apply when, in the medical judgment of the attending physician based on the particular facts of the case before him, there exists a medical emergency. In~~

~~such a case, the physician who is to perform the abortion shall describe the basis of his medical judgment that such an emergency exists on a form prescribed by the department as required by KRS 213.055, and the physician or his agent shall provide each parent or guardian with the following information within seven (7) days of the time the abortion is performed, either in person or by sending it by certified mail to the last known address of each parent or guardian:~~

~~(a) That an abortion has been performed upon his daughter or ward, and the medical indications for the physician's judgment that a medical emergency exists or existed;~~

~~(b) The name of the physician who performed the abortion or is to perform the abortion; and~~

~~(c) The particular medical risks associated with the particular abortion procedure employed, the symptoms of which might become manifest in the future.~~

~~(8) If the woman elects not to have her parents informed by the physician or his agent as provided in subsection (7) of this section, she shall inform the physician and the physician and his agents shall postpone giving notification until thirty (30) days after the first day in which the woman is, in the medical judgment of the attending physician, medically capable of filing a petition or motion for an order authorizing a physician and his agents to refrain from making the notification required by this section. The appropriate circuit court in the county in which the woman resides or in which the abortion was performed shall, upon petition or motion, after an appropriate hearing, authorize a physician and his agents to refrain from making the notification required by subsection (7) of this section if the court determines that the woman is mature and capable of giving informed consent or if it determines the woman's best interests would not be served by the notification. If the court makes neither determination, it shall issue an order specifying the date by which the physician or his agent shall provide the information prescribed by subsection (7) of this section. If the court does not reach a determination before the time by which the physician and his agents otherwise would be required to make notification, the court shall order that notification be withheld until it rules.~~

~~(9) No filing fees shall be required of any woman availing herself of the procedures provided by this section. An expedited confidential appeal shall be granted any woman to whom the court denies an order authorizing an abortion or an order authorizing a physician and his agents to refrain from making notification required by this section.~~

~~(10) The Supreme Court of Kentucky is respectfully requested, in the exercise of its powers under the Constitution of the Commonwealth, to issue promptly rules necessary to assure that proceedings under this section, and any appeals or other proceedings which may be related to this section, are confidential and prompt. The Supreme Court is further respectfully requested to issue promptly any rules or orders consistent with this chapter necessary to eliminate any undue burdens on a minor's or incompetent's opportunity for an abortion with sufficient expedition.~~

~~(11) Failure to comply with the requirements of this section, other than subsection (10), is prima facie evidence of failure to obtain informed consent and of interference with family relations in appropriate civil actions. The law of this Commonwealth shall not be construed to preclude the award of punitive damages or damages for emotional distress, even if unaccompanied by physical complications in any civil action brought pursuant to violations of this section. Nothing in this section shall be construed to limit the common law rights of parents~~].

Section 2. KRS 311.990 is amended to read as follows:

(1) Any person who violates KRS 311.250 shall be fined fifty dollars ($50.00) for the first offense and one hundred dollars ($100) for each subsequent offense.

(2) Any college or professor thereof violating the provisions of KRS 311.300 to 311.350 shall be civilly liable on his bond for a sum not less than one hundred dollars ($100) nor more than one thousand dollars ($1,000) for each violation, which may be recovered by an action in the name of the Commonwealth.

(3) Any person who presents to the county clerk for the purpose of registration any license which has been fraudulently obtained, or obtains any license under KRS 311.380 to 311.510 by false or fraudulent statement or representation, or practices podiatry under a false or assumed name or falsely impersonates another practitioner or former practitioner of a like or different name, or aids and abets any person in the practice of podiatry within the state without conforming to the requirements of KRS 311.380 to 311.510, or otherwise

violates or neglects to comply with any of the provisions of KRS 311.380 to 311.510, shall be fined not less than two hundred fifty dollars ($250) nor more than five thousand dollars ($5,000) or imprisoned in the county jail for not less than three (3) months nor more than twelve (12) months, or both so fined and imprisoned. (d) Eight (8) for four (4) year terms, one (1) of whom shall be an alumnus or alumna of the university, selected as under subsection (2)(b) of this section.

(3) At the expiration of the respective terms of the citizen members of the board of trustees as prescribed in subsection (2) of this section, successors shall be appointed by the governor for terms of four (4) years each, except that whenever a term expires after July 15, 1980, the member appointed by the governor to fill the vacancy shall be appointed for a six (6) year term, and in making such appointments the governor shall observe the requirements relating to nominations by the alumni members. Subject to such requirements the governor shall make his appointments from the state at large so as to divide the citizen representation upon the board as nearly equal as possible between the two (2) leading political parties in this state.

(4) Vacancies among the citizen members of the board occurring by death, resignation, removal of residence from the Commonwealth or any other cause shall be filled by appointments made by the governor for the expiration of the term, subject to the qualifications set forth in subsection (3) of this section.

(5) No member of the teaching or administrative staff of the university shall be directly or indirectly interested in any contract with the university for the sale of property, materials, supplies, equipment, or services, with the exception of compensation to the faculty, staff and student members.

(5) No payment of premium by the state or department, board or agency shall constitute compensation to an insured employe for the purposes of any statute fixing or limiting the compensation of such an employe. Any premium or other expense incurred by the state or department, board or agency shall be considered a proper cost of administration.

(6) The policy or policies may contain such provisions with respect to the class or classes of employes covered, amounts of insurance or coverage for designated classes or groups of employes, policy options, terms of eligibility, continuation of insurance or coverage after retirement, and such other provisions as the commissioner of insurance may approve.

(2) For the purpose of this section, instructional leader shall be defined as an employe of the public schools of the Commonwealth holding a valid certificate as a principal, assistant principal, supervisor of instruction, guidance counselor or director of special education.

(3) In order to carry out the purpose of this section, the state board of education shall establish a statewide program to improve and maintain the quality and effectiveness of instructional leadership in the public schools of the Commonwealth.

(4) The instructional leader improvement program shall contain the following provisions:

(a) Effective July 14, 1984, each instructional leader employed by the public schools of the Commonwealth shall participate in a continuing intensive training program designed especially for instructional leaders;

(b) Every two (2) years each instructional leader shall complete an intensive training program approved by the state board of education to include no less than forty-two (42) participant hours of instruction;

(c) The state board of education shall prescribe specific criteria for the training program and may contract for the training with qualified agencies or institutions; and

(d) Completion of the required participant hours shall be reported to the state department of education and to the local school district. If an instructional leader fails to complete the required hours of training, he shall be placed on probation for one (1) year and, if the training is not completed during the probationary period, his certificate will be revoked.

(5) As a means of improving the educational productivity of Kentucky's public schools, of providing a method by which the citizens of the Commonwealth can be assured of measures of accountability of the performance of certified school employes, and of providing encouragement and incentives for certified school employes to improve their performance, the state board of education shall establish a statewide program for improving the performance of all certified school personnel, including instructional leaders.

(6) The certified employe evaluation programs shall contain the following provisions:

(a) Effective January 1, 1985, each certified school employe, including the superintendent, shall be evaluated by a system developed by the local school district and approved by the state board of education;

3. All monitoring or observation of performance of a certified school employe shall be conducted openly and with full knowledge of the employe;

4. Evaluation shall include a conference between the evaluator and the person evaluated;

5. Evaluators shall be trained, tested, and certified in accordance with regulations adopted by the state board of education in the proper techniques for effectively evaluating certified school employes and in the use of the school district evaluation system; and

7. The training requirement for evaluators contained in subsection (6)(c)(5) shall not apply to district board of education members.

(7) The state department of education shall regularly, and at least yearly, visit every school district within the Commonwealth to review and insure implementation of the evaluation system by the local school district. The department shall establish an appeals procedure for certified school employes who feel that the local school district failed to properly implement the approved evaluation system. The appeals procedure shall not involve requests from individual certified school employes for review of the judgmental conclusions of their personal evaluations.

(8) The state department of education shall select and train evaluators from outside each local school district to conduct annual evaluations of a sample of certified school employes within each district in order to validate the effectiveness and accuracy of the local school districts' evaluators.

(9) Local school districts with an enrollment of sixty-five thousand (65,000) or more students shall be exempt from the requirements of this section except for subsections (10) and (11) of this section provided they meet the standards established by the state board of education for local school district evaluation systems.

(10) During the 1987-88 school year the sum of three hundred dollars ($300) shall be paid to each non-administrative certified person with a demonstrated record of effectiveness determined by successfully completing the evaluation process. Section 15. KRS 294.120 is amended to read as follows:

(1) Every mortgage loan company may require borrowers to pay all necessary and reasonable expenses incurred in connection with the making, closing, disbursing, extending, readjusting, or renewing of loans. (2) Every mortgage loan company also may require the borrowers to pay the cost of all other necessary and incidental services rendered by the mortgage loan company or by others in connection with loans in reasonable amounts. Without limiting the generality of the foregoing, such costs may include the cost of services of inspectors, engineers, and architects.

(3) Such initial charges as described in subsections (1) and (2) may be collected by the mortgage loan company from the borrower and paid to any person rendering such services, or paid directly by the borrower.

(4) In lieu of such initial charges to cover such expenses and costs as described in subsections (1) and (2), a mortgage loan company may make a reasonable charge, part or all of which may be retained by the mortgage loan company which renders such service, or part or all of which may be paid to others who render such services.

(5) The fees and charges authorized by this section shall be in addition to interest authorized by law, and shall not be deemed to be a part of the interest collected or agreed to be paid on such loans within the meaning of any law of this Commonwealth which limits the rate of interest which may be exacted in any transaction.

(6) No person shall receive any fee or other compensation of any kind in connection with procuring any loan, except for services actually rendered as above provided, and in no event shall a mortgage loan company require the payment of a fee greater than one hundred dollars ($100) as a condition to submitting a loan application unless the commissioner shall otherwise prescribe by rule.

(7) Upon receipt of a loan application, the mortgage loan company shall provide the applicant with a written explanation of the nature of all fees, expenses and other costs allowable under subsections (1) and (2) which, whether certain or uncertain, may be incurred or required of the borrower in connection with the approval, making, closing and disbursement of the loan.

(10) Failure on the part of any party, with the exception of the borrower, to fulfill the terms of any loan commitment, letter of commitment, agreement or contract for the loan of money within the time and on such terms specified therein, or the failure to make a bona fide effort to secure a loan after receiving a fee for such service, shall constitute default by the mortgage loan company and any other person so in default; and any person damaged by such default may sue at law or equity for damages, reasonable attorneys' fees and interest at *the legal rate of interest under KRS 360.010* [~~eight (8) percent~~]. Every cause of action for damages under this subsection survives the death of any person who might have been a plaintiff or defendant. No person may sue under this subsection more than five (5) years after any act constituting default.

Section 16. KRS 294.140 is amended to read as follows:

The commissioner shall exercise general supervision and control over mortgage loan companies and *mortgage* loan brokers doing business in the Commonwealth of Kentucky. In addition to the other duties imposed upon him by law, the powers and duties of the commissioner are:

(1) To prescribe such rules, regulations and forms and to promulgate such orders as are deemed to be necessary and appropriate to accomplish the basic purposes of and the provisions contained within this chapter. The commissioner may from time to time make, amend, and rescind such rules, forms and orders, including rules and forms governing applications, registration, reports, and loan disclosure statements and defining any terms, whether or not used in this chapter, insofar as the definitions are not inconsistent with the provisions of this chapter. For the purpose of rules and forms, the commissioner may classify loans, persons, and matters within his jurisdiction, and prescribe different requirements for different classes. No rule, form, or order may be made, amended, or rescinded unless the commissioner finds that the action is necessary or appropriate in the public interest and consistent with the purposes fairly intended by the policy and provisions of this chapter. In prescribing rules and forms the commissioner may cooperate with other state and federal agencies with a view to achieving maximum uniformity in the form and content of applications, reports and loan disclosure statements whenever practical;

(2) To conduct such investigations as may be necessary to determine whether any person has engaged in or is about to engage in any act, practice or course of conduct constituting a violation of any provision of this chapter;

(3) To conduct such examinations, investigations and hearings, in addition to those specifically provided for by law, as may be necessary and proper for the efficient administration of *this chapter* [~~the mortgage loan company laws of this state~~].

Section 17. KRS 294.160 is amended to read as follows:

Every mortgage loan company *and mortgage loan broker* shall make and keep such accounts, correspondence, memoranda, papers, books, data and other records as the *commissioner* [~~director by rule~~] prescribes. All records so required shall be preserved for *three (3)* [~~five (5)~~] years *from the date of collection of the last installment payment due under each agreement* unless the commissioner by rule prescribes otherwise for particular types of records. (2) No mortgage loan company *or mortgage loan broker* by any system of accounting or any device of bookkeeping shall, either directly or indirectly, enter any of its assets upon its books in the name of any person, partnership, association, or corporation, or under any title, designation or value that is not thoroughly descriptive of any assets.

(3) The affairs of every mortgage loan company *and mortgage loan broker* and the records required to be maintained by KRS 294.160 are subject at any time or from time to time to such periodic, special, or other examinations by the commissioner or an examiner of the commissioner within or without this state and with or without notice to the mortgage loan company *and mortgage loan broker,* as the commissioner deems necessary or appropriate in the public interest. All books, papers, and records of assets of the mortgage loan company shall be subject to his inspection.

(4) The examiner shall make a thorough examination into the condition, workings and affairs of the association and report any violation of law or any unauthorized unsafe practices or any failure to keep and have correct any required books and records as he may find to the commissioner.

(5) A mortgage loan company *or mortgage loan broker* shall pay a fee for each such examination *based on fair compensation for time and actual expense* [~~not to exceed one hundred dollars ($100) per day, or fraction thereof, that any and all examiners are absent from the office of the commissioner for the purpose of making such examinations, and in addition thereto shall pay the actual travel, lodging and meal expenses of such authorized examiner or examiners.~~] For the purpose of avoiding unnecessary duplication of examinations, the commissioner, insofar as he deems it practicable in administering this section, may cooperate with any agency of the state or federal government, other states, or the federal national mortgage association and may accept such examinations in whole or in part in lieu of an examination by the commissioner.

(6) The commissioner or his examiners or designated representative shall have access to all books and papers of a mortgage loan company *and mortgage loan broker* which relate to *their* [~~its~~] business, and books and papers kept by any officers, agents, or employes, relating to or upon which any record of its business is kept.

Section 19. KRS 294.220 is amended to read as follows:

Any such instrument of transfer, sale or contract shall be void and shall not be subject to be recorded, but *unless the subdivision plat subsequently receives final approval of the planning commission* all rights of such purchaser to damages are hereby preserved. The description of such lot or parcel by metes and bounds in any contract or instrument of transfer or other document used in the process of selling or transferring same shall not exempt the person attempting to transfer from penalties provided or deprive the purchaser of any rights or remedies he may otherwise have.

"SECTION 2. A NEW SECTION OF KRS CHAPTER 216B IS CREATED TO READ AS FOLLOWS:

Notwithstanding any provision of this chapter to the contrary, a licensed acute care hospital may, upon meeting appropriate standards as determined by the cabinet, whether or not a capital expenditure is required for the implementation and without certificate of need approval, obtain a dual license for twenty-five (25) licensed acute care beds or ten percent (10%) of the hospital's total licensed acute care bed capacity, whichever is greater, but not to exceed forty percent (40%) of the hospital's total licensed acute care bed capacity, to provide skilled nursing or intermediate care in such beds. No person shall be admitted to an acute care bed for the purpose of receiving intermediate care or skilled nursing care unless there is not a bed available in any intermediate care facility or skilled nursing facility within the county of residence of the patient or of the hospital or the patient has been refused admission to such intermediate care facility or skilled nursing facility. Dual licensure of acute care beds does not constitute either a substantial change in bed capacity or a substantial change in a health service.

SECTION 3. A NEW SECTION OF KRS CHAPTER 205 IS CREATED TO READ AS FOLLOWS:

(1) To prevent inappropriate placement and to contain costs related thereto, the secretary for human resources shall implement a statewide prescreening and admissions review system, including the imposition of a resource means test, for all long-term care facilities and beds, as defined under KRS Chapter 216, and any acute care hospital based skilled nursing or intermediate care beds participating under title XIX of the social security act, regardless of the payment status of the resident upon admission. Any person having resources sufficient to cover the cost of care for at least three hundred sixty-five (365) days following admission may be admitted to a long-term care bed or facility if such person so desires: Provided, however, that if a person:

(a) Is admitted to a long-term care facility or acute care hospital based skilled nursing or intermediate care bed without participating in the prescreening and admissions review system; or

(b) Participates in the prescreening and admissions review system and is not authorized for placement in a long-term care facility or acute care hospital based skilled nursing or intermediate care bed;

such person is not eligible for medical assistance payment for skilled nursing or intermediate care for one (1) year after the date of the person's admission to a skilled nursing or intermediate care facility or acute care hospital based skilled nursing or intermediate care bed unless the person subsequently participates in the prescreening and admissions review system and is authorized for admission to an intermediate care or skilled nursing facility or acute care hospital based skilled nursing or intermediate care bed.

(2) To implement the provisions of this section the cabinet shall establish preadmission screening teams composed of a nurse, social worker and physician.

(3) Before pre-authorization of any person for admission to an intermediate care facility or skilled care facility or acute care hospital based skilled nursing or intermediate care bed, the cabinet shall first make the following determinations:

(a) The health status and care needs of the person requires immediate institutionalization in an intermediate care facility or skilled nursing facility or acute care hospital based skilled nursing or intermediate care bed;

(b) The person and his family have been fully advised of

alternatives to institutional care and possible sources of reimbursement for such care;

(c) Alternatives to institutional care are not feasible; and

(d) Other such determinations as specified by administrative regulations promulgated by the cabinet under KRS Chapter 13A.

(4) Admission of a person to an intermediate care facility, or a skilled nursing facility without first obtaining prior authorization from the cabinet for human resources shall constitute a Class B violation.

(5) The secretary for the cabinet shall promulgate such administrative regulations, subject to KRS Chapter 13A, as necessary to implement this section."

HB 978, AN ACT relating to coal haul roads.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 177 IS CREATED TO READ AS FOLLOWS:

(1) The "extended weight coal haul road system" shall consist of public highways over which quantities of coal in excess of 50,000 tons were transported by motor vehicles during the period from January 1, 1985, through December 31, 1985 and shall be updated annually thereafter.

(2) The secretary of the transportation cabinet shall by official order on or before November 1, of each year, certify such public highways or portions thereof, as fulfill the criteria in subsection (1) of this section as the extended weight coal haul road system.

(3) The total tons of coal transported by motor vehicles over any public highway shall be determined from the official coal road system transportation report required pursuant to KRS 177.977.

(4) Any vehicle when registered with a declared gross weight of 80,000 pounds and when transporting coal over public highways which are part of the extended weight coal haul road system or portions thereof, may be operated at the weights as set forth below in excess of the maximum gross weight prescribed in KRS 189.221 and 189.222 and any other maximum weight limitations on state or county maintained systems by entering into a cooperative agreement as provided in KRS 177.979 or by paying the corresponding decal fee as set forth below:

(a) A single unit truck having one (1) steering axle and two (2) axles in tandem shall be limited to a maximum gross weight of ninety thousand (90,000) pounds with a tolerance of five percent (5%), and pay a decal fee of one hundred sixty dollars ($160) annually;

(b) A single unit truck having one (1) steering axle and three (3) axles in tridem arrangement shall be limited to a maximum gross weight of one hundred thousand (100,000) pounds with a tolerance of five percent (5%), and pay a decal fee of two hundred sixty dollars ($260) annually;

(c) Tractor-semitrailer combinations with five (5) or more axles shall be limited to a maximum gross weight of one hundred twenty thousand (120,000) pounds with a tolerance of five percent (5%), and pay a decal fee of three hundred sixty dollars ($360) annually;

(d) Any motor carrier involved in the transportation of coal which meets gross axle weights of twenty thousand (20,000) pounds per axle and twelve thousand (12,000) pounds for the steering axle may register in excess of eighty thousand (80,000) pounds by payment of eight hundred and forty dollars ($840) plus an additional decal fee of ten dollars ($10) per thousand (1,000) pounds of registered weight above eighty thousand (80,000) pounds;

(e) For purposes of this Act, and for purposes of the extended weight coal haul system, the dimensional requirements of motor vehicles shall conform to all appropriate federal laws and regulations;

(f) The payment of the decal fee shall be in addition to any state registration fee, user fee or other decal fee, including the registration fee as specified in KRS 186.050(3);

(g) Motor vehicles used in the transportation of coal under cooperative agreements pursuant to KRS 177.979 shall be exempt from the payment of the decal fee as set forth in this section and the registration fee as set forth in KRS 186.050(3) as long as the truck is driven over cooperative roads only while full. The transportation cabinet shall issue identifying license plates for those motor vehicles under cooperative agreements;

(h) All fees under this section shall be scheduled for payment and prorated pursuant to the provisions of KRS 186.051; and

(i) All revenues generated pursuant to this section shall be credited to a special account within the road fund called the "energy recovery road fund."

(5) Sixty percent (60%) of all energy recovery road funds shall be used by the department of highways for construction, maintenance, and repair of the state-maintained portion of the extended weight coal haul road system.

(6) Forty percent (40%) of all energy recovery road funds shall be distributed to the fiscal court of those counties in which coal is transported for the sole purpose of construction, maintenance and repair of the county-maintained portion of the extended weight coal haul system. The distribution of funds to the counties shall be proportioned based on the miles of county roads on the extended weight coal haul system in each county compared to the total mileage of county roads in the total extended weight coal haul road system and the tons of coal transported over county roads on the extended weight coal haul system in each county compared to the total tons of coal transported over county roads in the total extended weight coal haul road system.

(7) Nothing in this section shall be construed or administered to jeopardize the receipt of federal funds for highway purposes and the secretary of transportation shall not act in any manner which shall jeopardize federal highway funds or funds to be received by the Commonwealth. In no event shall this section be construed to authorize any vehicle to operate on a federal interstate highway in excess of those limits prescribed in KRS 189.222. Likewise, nothing in this section shall be construed to prohibit the department of highways from providing for the public safety and convenience of the traveling public on the highway.

(8) As soon as practical after the report is prepared and published pursuant to KRS 177.977 for any calendar year after 1985, the secretary shall add to or delete from the extended weight coal haul road system public highways or portions thereof based upon the criteria set out in this section. However, deletion of a public road or portion thereof from the extended weight coal haul road system shall not affect the eligibility of such roads for highway funds or programs applicable to the extended weight coal haul road system.

(9) A fiscal court or a governing body of a city of the first through fourth class or urban county government may by resolution, make recommendation to the secretary of the transportation cabinet that certain roads or road segments in the county or corporate city limits pose inherent and definite hazards or special conditions that the secretary shall take into consideration before adding to or deleting from the extended weight coal haul system.

(10) The secretary of the transportation cabinet is authorized to promulgate administrative regulations pursuant to KRS Chapter 13A as may be necessary to administer the provisions of this Act.

Section 2. KRS 177.978 is amended to read as follows:

(1) All revenues generated pursuant to KRS *177.990(4) and (5) and Section 1(4) of this Act and no other taxes or fees normally assessed on motor carriers* [~~177.979, 177.980, and 186.990(7) and (10)~~] shall be credited to a special account within the road fund called the "*energy* [~~coal~~] recovery road fund" and any additional funds obtained through state appropriation, gifts, grants and federal funds may be credited to the special account, and shall be used, in addition to those road funds normally used for said highways, exclusively by the transportation cabinet for those costs attendant to highway purposes for roads *designated as part of the extended weight coal haul road system* [~~covered by any cooperative agreements under KRS 177.976~~]. All funds in the account shall be carried forward at the end of each year.

(2) All funds credited to the "coal recovery road fund" shall be transferred to the "energy recovery road fund."

Section 3. KRS 177.979 is amended to read as follows:

(1) *Upon application* the department of *highways shall* [~~vehicle regulation is authorized to~~] enter into cooperative agreements with any person engaged in the mining, processing, transporting or sale of coal providing for the transportation of coal in vehicles exceeding the maximum weight limits on the state maintained system. Such cooperative agreements shall provide for an equitable apportionment of the incremental costs for design, maintenance, construction or reconstruction of those roads and bridges, except those roads and bridges which are part of the federal interstate highway system, resulting from the transportation of coal by trucks transporting coal in excess of the maximum weight limits on the state maintained system and covered by the cooperative agreement. Nothing contained herein shall effect the continuing validity of any existing agreement.

(2) [~~Any area of dispute arising under a cooperative road agreement, excluding the weight bearing capacity of a bridge, which cannot be resolved between the parties shall be submitted to an arbitration panel, which shall consist of one (1) arbitrator appointed by the commissioner of the department of highways, one (1) arbitrator~~

~~appointed by the aggrieved party or parties, with the third arbitrator being appointed by the commissioner of the department of vehicle regulation, from a list of persons agreed to jointly by the commissioner of the department of highways and the parties to the cooperative agreement. In the event the two (2) parties to the dispute cannot agree upon a joint list, the third arbitrator shall be chosen by the commissioner of the department of vehicle regulation. The administrative costs incurred by the transportation cabinet in the arbitration procedures as provided herein shall be paid out of those revenues deposited pursuant to KRS 177.978.~~

~~(3) In any dispute arising under a cooperative road agreement concerning the weight bearing capacity of a bridge, the aggrieved party or parties shall submit to the state highway engineer a certified opinion rendered by a qualified registered engineer duly licensed in the Commonwealth, setting forth his independent analysis of the weight bearing capacity of the bridge. Relying in fact upon said certified independent analysis, the state highway engineer may adjust the determination of weight bearing capacity of a bridge.~~

~~(4)~~] Notwithstanding KRS Chapter 143 the total tax contributions from any person entering into a cooperative agreement, as specified in this section, shall not exceed, in the aggregate, the sum of five thousand dollars ($5,000) per mile per year on those roads covered by the cooperative agreement, *but shall equal a minimum of one thousand two hundred dollars ($1200) per motor vehicle hauling coal over those cooperative road segments over three (3) miles in length,* but such contribution shall not exceed ten (10) cents per ton of coal hauled on cooperative roads per year from an individual coal operator unless otherwise agreed *to by the operator.* The transportation cabinet may allow any person, under the cooperative agreement, to provide for the design, approved maintenance, construction or reconstruction provided for in subsection (1) of this section in accordance with guidelines or standards prescribed by the cabinet. In the event any person exceeds his annual total tax contribution as authorized under a cooperative agreement, such person may petition the commissioner of vehicle regulation for a carry over for future years liability. *All funds collected pursuant to this section shall be expended on those roads covered by the cooperative agreement.*

(3)[~~(5)~~] Notwithstanding any provision of KRS 177.976 to 177.981 or 186.057, the Commonwealth shall not be relieved of expending its normal routine maintenance on all roads covered by the cooperative agreements.

Section 4. KRS 177.990 is amended to read as follows:

(1) Any person who violates any of the provisions of KRS 177.220 to 177.310 shall be guilty of a misdemeanor and upon arrest and conviction therefor, shall be punished by a fine of not less than five dollars ($5.00) nor more than one hundred dollars ($100) or by imprisonment in the city or county jail for not less than five (5) days nor more than ninety (90) days, or by both such fine and imprisonment.

"It is the intent of this General Assembly to focus the Cabinet's resources, insofar as possible, on direct service provision, minimizing the state's reimbursement of indirect administrative expenses. To this end, a limit of 15% on indirect administrative cost is hereby established for all contracts, except Medicaid benefits, between the Cabinet and non-state government agencies and individuals.

This directive is inclusive of all contract types (with the exceptions noted below), including but not limited to cost reimbursement type contracts, competitively bid or negotiated fixed price contracts, program administration contracts, and personal service contracts. All contracts shall be offered for bid or negotiation in such a manner as to clearly indicate that the State will limit its reimbursement of indirect administrative cost to no more than 15% of the contract total. If indirect administrative cost exceeds these limits, the additional expense shall be the responsibility of the contract agency or individual, not the Commonwealth. The provision for allocation and definition of direct and indirect costs shall be set forth by administrative regulation.

In reference to contracts with Medicaid providers, the intent of this General Assembly is to minimize reimbursement that is not associated with direct medical care of the patient. To that end, the Department for Medicaid Services is directed to implement reimbursement policies which achieve this objective, within the bounds of federal law and regulation.

Auditors for the Cabinet and the State Auditor are hereby directed to complete audits of all Cabinet contracts, beginning with those effective July 1, 1986, and henceforth, with a statement of this intent as a criteria to be noted in such audit report.

Exceptions to this policy may be authorized by the Secretary of the Finance and Administration Cabinet only under the following circumstances:

1. the contract is for a service which is predominantly administrative in nature;

2. the Secretary of the Cabinet for Human Resources certifies such fact and also documents why such service cannot be performed by state employees;

3. the Secretary of the Cabinet for Human REsources may waive the 15% limitation on indirect administrative cost for competitively bid contracts when such action results in the award of the lowest and best bid proposal;

4. a listing of such contracts is submitted at the end of each fiscal year to the respective chairmen of the House and Senate Appropriations and Revenue Committees; and,

5. a limit of 25% for all administrative costs may be established for contracts whose total does not exceed $100,000 and for which state funds comprise at least 75% of the fund sources available for such contracts.

The Secretary may enter into contractual arrangements, contingent on the availability of General Funds, to reimburse indigent pediatric hospital care subject to the availability of local matching funds. The availability of General Funds shall be subject to the approval of the Secretary of the Finance and Administration Cabinet and the Executive Director of the Governor's Office of Policy and Management. Any such contract entered into by the Secretary for Human Resources shall be reported to the Interim Joint Committee on Appropriations and Revenue.

Any General Fund surplus occurring during fiscal year 1986-87 shall not lapse but be carried forward as a reserve account for replacement of any federal fund reductions from budgeted levels which may occur prior to January 1, 1987-88. The balance of such reserve fund remaining on January 1, 1988, shall be expended for the following purpose an AFDC payments increase and an increase in reimbursement to personal care homes.";

Message from the Governor

Announcing veto of HB 310 and HB 899.

The Veto Message on HB 310 is as follows:

By the authority vested in me by Section 88 of the Constitution of the Commonwealth of Kentucky, I, Martha Layne Collins, Governor of the Commonwealth of Kentucky, hereby veto HB 310.

The Senate floor amendment to HB 310 will impose serious restraints on the executive branch's ability to react to changing situations that occur after adjournment of the General Assembly. The enactment into law of all administrative regulations precludes any ability on the part of the executive branch to modify those regulations once they are enacted into law. The General Assembly cannot authorize the executive branch to amend statutes when the legislature is not in session.

Among the readily apparent areas in which the executive branch needs the flexibility to alter regulations are:

1. Federally mandated programs.

a) Federally funded programs in the Cabinet for Human Resources are conditioned upon the Cabinet's programs being in compliance with federal laws and regulations that are consistently altered by the congress and the federal executive branch during the interim the General Assembly is not in session. Eligibility requirements for the food stamp program, the AFDC program, the Medicaid program and numerous other federally funded social insurance programs are contingent upon congressional and federal agency actions, which routinely necessitate changes in the regulations when the General Assembly is not in session.

b) Congress has enacted several federal programs that permit the states to have primacy in implementing those programs if their laws and regulations comply with minimum federal standards. These federal standards are routinely altered, sometimes by congress, but more often by the federal agency responsible for monitoring the state programs. Among programs involved in "primacy" issues are surface mining, the pollution discharge elimination system, hazardous waste, air pollution and OSHA. The inability of state agencies to make necessary changes in these programs through amendments to their regulations will lead to the loss of primacy in many of these programs.

2. There have been incidents in the past, particularly in the Medicaid program, when immediate program adjustments ineligibility requirements or reimbursement policies have been necessitated in order to maintain the program within legislatively appropriated levels. The inability to change eligibility requirement or reimbursement policies could result in the Medicaid program exhausting appropriated funds prior to the end of a fiscal year.

The last subsection of the amendment, requiring administrative bodies seeking to continue in effect a regulation beyond the next session of the General Assembly to submit those regulations to the appropriate interim committee of the Legislative Research Commission one hundred and eighty days prior to the convening of that session, would appear to preclude the adoption of any regulation, which the agency desires to keep in effect, during that one hundred eighty days. The executive branch must possess the ability to promulgate regulations during this six month period for the reasons previously set forth.

I understand the concerns of the legislature as they relate to the executive branch thwarting or misinterpreting legislative intent through administrative regulations. I am, therefore, going to establish by executive order a new procedure for those administrative bodies under my administrative control to follow when promulgating regulations. This procedure will allow for more citizen input in the formulative stage of the development of the regulation and will provide citizens with an appeal mechanism outside of the agency that promulgated the regulation. I have submitted to the legislature by separate document a draft of my proposed executive order.

s/Martha Layne Collins, Governor
Commonwealth of Kentucky

The Veto Message on HB 899 is as follows:

By virtue of the authority vested in me by Section 88 of the Constitution of the Commonwealth of Kentucky, I, Martha Layne Collins, Governor of the Commonwealth of Kentucky, do hereby veto HB 899. The Senate amendment to this bill is an understandable attempt to facilitate the ability of telephone customers who do not currently have toll free county wide telephone service available to them to have determined the desirability of obtaining such service. It requires upon the filing of a petition containing the signatures of ten subscribers, that a poll of all subscribers within he county be made after the estimated costs of initiating such service has been determined.

This is not a cost efficient means of determining whether or not toll free service is desired. Under the current procedures of the commission, upon the receipt of such a petition, an initial determination is made, based upon a review of current calling patterns within the county, as to whether or not there is a sufficient community of interest between the various telephone exchanges within the county to justify the engineering study necessary to determine the estimated cost of county wide toll free service. This initial review of calling patterns in inexpensive and often proves that there is not any significant interest in county wide toll free service. The engineering study and the random survey of subscribers made after the study are, however, relatively expensive, costing approximately $30,000.

The current procedure also requires that, if the calling patterns justify further study, representative sampling of the subscribers be taken to see if toll free calling is desired. The Senate amendment requires that all subscribers within the county be polled, adding an additional expense to the process. There are currently over one hundred exchanges in approximately thirty counties that do not have access to county wide toll free service. If a petition is filed in each of these counties an inordinate cost will have to be passed onto telephone subscribers throughout the state with no guarantee that any additional county will vote for toll free service.

I have requested the Public Service Commission to immediately begin to review its procedures pertaining to citizen requests for toll free service and to the construction of water improvements financed with the assistance of the Farmers Home Administration. The Commission has agreed to begin such a review with the purpose of addressing the concerns inherent in this legislation.

s/Martha Layne Collins, Governor
Commonwealth of Kentucky

HR 221, A RESOLUTION commending KET for its excellent coverage of the 1986 Session.

WHEREAS, the democratic institutions of any government depend for their strength on an informed citizenry; and

WHEREAS, Kentucky Educational Television, through its daily, extended coverage of the work of the General Assembly, provides a valuable service to this body and to the people of the Commonwealth; and

WHEREAS, tens of thousands of Kentuckians have, through KET, been able to attend our committee meetings and watch floor debates, coming to understand more clearly the issues before us and the work of their elected representatives;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. That the House is proud to commend the excellent coverage of the 1986 Session provided by KET.

Section 2. That the House salutes the dedication and exemplary work of the men and women of KET who made this coverage possible.

HR 219, A RESOLUTION requesting a study for the formulation of policies with respect to natural gas research opportunities in South Central Kentucky and with respect to protection of groundwater resources in the region.

WHEREAS, most of Kentucky's karst areas are blessed with abundant, clean groundwater and some significant oil and gas yielding formations as indicated in the Horse Cave quadrangle geologic map; and

WHEREAS, very little work has been done to determine the recoverability of gas from these formations, most of the gas uses having been random farm use of wells drilled for oil production and abandoned by the driller as non-oil yielding; and

WHEREAS, there are many, many such wells in the Kentucky karst area, constituting an under-utilized resource as well as a potential threat to excellent quality groundwater sources; and

WHEREAS, the present economic climate and very high costs of utilization of this natural gas resource in pipeline sales preclude such development; and

WHEREAS, there is great economic potential in this resource if methods of efficient, economical recovery are developed, techniques are worked out to properly protect the groundwater resources during development and recovery of the gas resources, and markets are developed for the sale of this locally-produced fuel as compressed natural gas or liquified natural gas vehicle fuels;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. That it is the sense of this body that all of the natural resources of the Commonwealth should be developed in a manner consistent with state conservation and environmental policies, and with the interests of the people living and working in the areas where the resources are located.

Section 2. That the Interim Joint Committees on Agriculture and Natural Resources, Energy, and the Small Business Task Force of the Legislative Research Commission are requested to study the potential economic and environmental benefits that may be derived from the recovery of natural gas resources in South Central Kentucky that are under-utilized under present oil and gas exploration and distribution systems, but that may be of value to the people who live and work in that region through application of new technologies for use of such resources and through self-help approaches to capture and utilize such resources. The study should focus on the inherent advantages of natural gas as an energy source for transportation as well as for other uses, and the role that local gas usage could play in reducing the vulnerability of regional economic activities to the uncertainty of oil and gasoline prices. The study also should involve protection of regional groundwater resources against degradation associated with oil and gas recovery.
